BOOK REVIEW

Book Review The Greedy Lion

On a hot summer day, a lion started feeling hungry in the forest. He was starting to hunt for his food when he was met by a rabbit roaming alone. Instead of catching the rabbit, he let it go - "A little rabbit cannot satisfy my hunger like this", he said and scoffed. Then, a beautiful deer passed by and decided to take his chances - he ran and ran after the deer but since he was weak due to hunger, he struggled to keep up with the deer's speed. Exhausted and defeated, the lion went back for a while in search of the hare to feed his stomach, but he left. The lion was sad and remained hungry for a long time.

Moral - Greed is never a good thing.

BOOK REVIEW

Lazy John

There was a boy named John who was so lazy, he didn't even bother to change his clothes. One day, he saw that the apple in their yard was full of fruits. He wanted to eat some apples but he was too lazy to climb the tree and take the fruits. So he lay down underneath the tree and waited for the fruits to fall. John waited but apples never fell.

MORAL → Laziness won't get anything
So one should work hard.

The Manic Panic

– Richa Jha & Mithila Ananth

Manic Panic is a funny and much needed story by Richa Jha and Mithila Ananth. The story gives a very good lesson to cope with the increasing screen time these. The illustrations add depth to the story, helping us to see all the small things we can miss when we're glued to our phones. In this story, some grown-ups have so much screen time that they just can't cope when the wife goes out. Luckily the grown-ups in Manic Panic live with a smart kid who loves to read and an adventurous grandma who knows how to have fun without the internet. She explained to her parents about the other things they can do instead of spending all the time on their phones, with the help of her grandmother. She took them to the park, and then they go for a long drive. They are all happy by spending a wonderful and peaceful day together.

This story books gives a much needed lesson to us, and explain about the life that is much more beautiful, without or with less screen-time.
