LATE SHRI KULWANT SINGH I.A.S. (RETD)

FOUNDER CHAIRMAN, BHARATIYA VIDYA BHAVAN, PANCHKULA

A good system of education should aim at holistic development of the personality of an individual to ensure peace and happiness in his life. It should also ensure that the mind of an individual is so cultured as to enable one to comprehend and accomplish his full potential – of mind, body and spirit – in personal and social spheres. Bharatiya Vidya Bhavan ensues such development by inculcating in the individual: habits of reverence for learning and for the teacher, humility in achievement & devotion to duty – the ultimate goal being self-realisation through gyana, karma and bhakti. Thus, it is a complete system of education which gives depth to the curriculum to ensure harmony between the individual and his physical and social environment. The challenge of modern education has been summed up beautifully by an American author “We are drowning in information and starved for knowledge.” It is to this challenge that Bharatiya Vidya Bhavan offers a complete answer. Let us all join hands in making it a success.
