नन्ही कलम से

अल्लादीन का चिराग कविता

अल्लादीन का चिराग पड़ा

हाथ अनुराग बैठा थक नही

जानता बस यह खेलता डोलता

किसी तरफ रचाई आता है जिन्ना बाहर

निकल आता आकर यह कहता है नौज

आका काम क्या है

देखो अनुराग दरवा पास में कौन

आता है जिन्ना ने इसे समझाया

इसकी समझ कुछ आया

अच्छा तो पढाई सुनाओ मुझे टीचर

समझ लिया है इसी काम को बुलाया है

अथवा कोई और काम है

अच्छा मेरे लिए खाना लाओ खाना लाने

को पैसा मेरे पास तो पैसा नही है

होटल वाला क्या मेरा बाप है

कहेमा लेजा बैठा तेश ही माल है

मुझ मे खाना वह दे देगा वैसे श्री होटल

अब बंद हो गये जीरी मैं करता नही हूँ

जाहूँ श्री तो दिखाइ नही देता है मेरी

आई साइड कमजोर हो गई है बेटे अब

कुछ समझ आ गई है और अंकित मुम तो

शायरी करते हो

कुछ दिन पढते नबिक अक्षर के पास था

उन्ही से यह हुनर थोड़ा था लिया था

The Readers

Book review....

Who can resist a good story, especially when it is being told by Grandma!!!

*Today I am reviewing the story book **Sudha Murthy 's Grandma's Bag of Stories..***

It is fun-filled story book with variety of stories. Story telling was excellent and the language is easy and fun.I almost reached there while reading the book.I must say the book is must for the new readers.It is not only for enjoyment but also taught the good lessons.Every story is perfect but my personal favourite is "A treasure for Ramu".

The book contains tales of kings ,monkeys ,mice ,bear ,GOD .

So what are you waiting for ,if you are really looking for something which is fun and of value..Go and grab your copy..

BEAUTY OF NATURE

Back to Nature

I love to dwell in forest wild,
Where giant pine trees pierce the sky;
A beauty spot where Nature smiled,
A fitting place to live and die;

Thank You!

There was a girl called Cinderella. She lived with her father. Some years ago, her mother passed away. Then her father married someone else. She was the stepmother of Cinderella. Cinderella's stepmother and step sisters behaved very unkindly with her. First step mother and step sisters made her do all the house work

HEALTH PRECAUTIONS FOR MONSOON

Tips to stay healthy in this rainy season:-

1) Use Mosquito nets and repellents:-

Malaria is most common disease during monsoon. Since it is spread by female ANOPHELES mosquito, it is advisable to use mosquito net or repellent. Try to get rid of any stagnant water as it is the breeding spot for mosquitoes.

2) Drink Boiled Water and Lots of It:-

Drink lots of water and make sure that you are drinking boiled water. This will lower risk of water borne diseases like diarrhoea.

3) Avoid Uncooked and Street food:-

It is advisable to avoid uncooked or street food because they may have germs.

4) Avoid Walking in Dirty Water:-

Try to avoid walking in dirty puddle during the rains as it is rife with virus and bacteria.

5) Take bath :- Take bath when reach home. Use Dettol or Savlon.

6) Avoid Wet Walls:- Wet walls are breeding ground for fungus and it can cause allergies. So, avoid going near a wet wall.

7) Eat Healthy Food :- It is important to eat healthy to keep stomach infection at bay.

We can also take VITAMIN C supplements to improve our immunity.

VAN MAHOTSAV Van Mahotsav or Vanamahotsava, also called 'Forest festival', is an annual one-week tree-planting festival in India which is celebrated in the first week of July (1st-7th). It is dedicated to Mother Earth in order to protect our life support system on the planet. The first Indian national tree plantation week was organized by M.S. Randhawa from 20 to 27 July 1947. It was made into a national activity in 1950 by the Minister of Food and Agriculture Kanaiyalal Maneklal Munshi who moved it to the first week of July and renamed it as Van Mahotsav in 1950. By encouraging Indians to support tree planting and tending, festival organizers hope to create more forests in the country. It will provide alternative fuels, create shelter-belts around fields to increase productivity, provide food and shade for cattle, offer shade and decorative landscapes, reduce drought, and help to prevent soil erosion. The first week of July is just the right time for planting trees in most parts of India since it coincides with the monsoon. The plantation of trees is well planned and generally, native saplings are planted as they readily adapt to the local conditions and have a higher rate of growing into a full-grown tree. The saplings and the funds are arranged and supplied by the government authorities, state and civic bodies to schools, colleges, NGOs, institutions, and other welfare organizations. We all should try to be a part of this noble cause and create awareness about the same.
