

MONTHLY MAGAZINE  
OF VIII SATYAM

# JANMASHTAMI

- The Hindus celebrate Janmashtami for the birth of Sri Krishna. Lord Krishna was born on the 8th day of Dark Fortnight in the month of Bhadon.
- The festival usually occurs in August. Moreover, the Hindus celebrate this festival in the Ashtami of Krishna Paksha.
- Moreover, Lord Krishna is the most powerful incarnation of Lord Vishnu. It is a joyful festival for the Hindus.
- Furthermore, the Hindus perform different rituals to please Lord Krishna. This is one of the most joyous celebrations for the Hindus.
- Sri Krishna was dark-colored. So he was always worried about his color.
- Moreover, Sri Krishna had a friend named Radha. Radha was of great importance to Krishna. So he always spent time with her.
- Radha was very beautiful and fair so Lord Krishna always feels color complex.

# INDEPENDENCE DAY

- For almost two centuries the Britishers ruled over us. And the citizen of the country suffered a lot due to these oppressors.
- British officials treat us like slaves until we manage to fight back against them.
- We struggled for our independence but work tirelessly and selflessly under the guidance of our leaders Jawahar Lal Nehru, Subhash Chandra Bose, Mahatma Gandhi, Chandra Shekhar Azad, and Bhagat Singh.
- Some of these leaders choose the path of violence while some choose non-violence. But the ultimate aim of these was to drive out the Britishers from the country.
- On 15th August 1947, the long-awaited dream came true, We got independence.

# GANESH CHATURTHI

- India is known as a land of heritage and culture of gods, saints and sage.
- Ganesh Ji is known as ‘ *DUKH HARTA* ‘ because he can take away anybodies sadness.
- He is known with different names : Ganesh , Ganpati , Vinayaka.
- Mouse is believed to be his vehicle. In his guidance everything is possible.
- Ganesh Ji loves eating ‘ *LADOO* ‘
- Ganesh Ji has a small mouth which tells us to speak less and he has big ears which tells us to listen more.

VAANYA SHARMA 8<sup>TH</sup> SATYAM

- North Korea and Cuba are the only places you can't buy Coca-Cola.
- It can take 40,000 years to travel from the core of the sun to the surface, but only 8 minutes to travel the rest of the way to earth.
- If you were to remove all of the empty space from the atoms that make up every human on earth, the entire world population could fit into an apple.
- Honey does not spoil. You could feasibly eat 3000 year old honey.
- The Spanish national anthem has no words.
- Back when dinosaurs existed, there used to be volcanoes that were erupting on the moon.
- The only letter that doesn't appear on the periodic table is J.
- If you point your car keys to your head, it increases the remote's signal range.
- At birth, a baby panda is smaller than a mouse.
- Violin bows are commonly made from horse hair.

August Edition!

## The Colour of life

By Nilaksh Singla

Beautiful poem By Simranjot Kaur highlighting every heavenly aspect visible about rain (right)

And A General knowledge Fact about us(below)

**Human Rights Day is celebrated annually across the world on 10 December every year.**

**The date was chosen to honor the United Nations General Assembly's adoption and proclamation, on 10 December 1948, of the Universal Declaration of Human Rights (UDHR), the first global enunciation of human rights and one of the first major achievements of the new United Nations. The formal establishment of Human Rights Day occurred at the 317th Plenary Meeting of the General Assembly on 4 December 1950.**

## **A DAY IN RAIN**

A cold breeze blows,  
My face glows.  
By being a pluviophile,  
I enjoyed for a long while.

The rain was so kind,  
I lost my mind.  
With a hand I grabbed my umbrella,  
And bounced around like Cinderella.

Having fun by making paper boats,  
Running here and there just like goats.  
Seeing a blossoming lily,  
While thinking of something silly.

I was having so much fun,  
Seeing the clouds hide the sun.  
May this kind of day, come again,  
The best day of my life, was a day in Rain.

- Simranjot Kaur

By Kunjal Nimbran & Shivam

**Facts you won't believe  
without crosschecking**

**There are 12 times more trees on Earth than stars in the Milky Way! But stars don't vanish, and trees do and did...So save trees and we'll always be ahead and beyond stars!**

**There was a time when 4 distinct human species lived at the same time. Yes, they lived much more peacefully than human species alone even though they had more dangers**

**Cows kill more people than sharks. But we still need to pay attention to sharks because they can smell blood miles away.**

**UNBELIEVABLE FACTS BY SHRESHTH KATHURIA**

# Curious nature of Elephant!

**Elephant are usually peaceful animals. Do you know**

**“Elephants are only animals that can’t jump”. So here are some more facts for you to know about Elephants.**

- ✚ Elephants have around 1,50,000 muscle units in their trunk.
- ✚ Elephants are herbivores and need to consume 300-400 pounds of food per day.
- ✚ Studies have shown that they possess a variety of complex emotions and feelings, including deep compassion and surprising self-awareness.
- ✚ When elephants greet each other, they twine their trunks together.
- ✚ Elephants must migrate seasonally in order to find food, relying on their memories of previous food and water supplies (the old saying, “an elephant never forgets”).
- ✚ The tusks of an elephant can weigh up to 200 pounds and can grow up to 10 feet in length.
- ✚ The back part of the elephants ears is called its “knuckles” and it’s known as the softest part of their body.
- ✚ Elephants only sleep for 2 to 3 hours a day.
- ✚ Elephants show similar emotions like humans do. If a member of their herd dies, they show sadness and grieve the loss of their family members long after they have passed away. **So we need to conserve them**

**SAVE THE ELEPHANT, NOW NOT LATER**

# Fiddle with Riddles

1. What comes once in a minute, twice in a moment and never in a thousand years?
2. It is as light as a feather, but even the strongest person can not hold it. What is it?
3. I have keys but no locks, I have space but no rooms, you can enter but can never go outside. What am I?
4. "Many have heard me, but nobody has ever seen me." I will not speak until spoken to first. What am I?
5. Which is correct to say: "The yolk of egg is white." Or "The yolk of egg are white."?
6. The more there is, the less you see. What am I?
7. I sound like one letter, but written with three. I show you things when you look through me. What am I?
8. Forwards I am heavy, backwards I am not. What am I?
9. What goes up and down without moving?
10. What begins with T, ends with T and has T in it. What is it?

**Answer key:-**

1. The letter "m"
2. Breath
3. A computer keyboard
4. An echo
5. Neither, egg yolks are yellow.
6. Darkness
7. An eye
8. A ton
9. Stairs
10. A teapot

# Proper Time Management

### Some tips for proper time management

- **Prioritize work**  
Before the start of the day, make a list of all the tasks that need your immediate attention. Unnecessary tasks can waste most of your precious time which needs to be preserved for urgent tasks
- **Set a deadline**  
Whenever you have a task at hand, set a realistic deadline and stick to it. Challenge yourself and meet the deadline; reward yourself for meeting a difficult challenge
- **Overcome procrastination**  
Procrastination is a major thing which has a negative impact on productivity. It can result in wasting essential time and energy
- **Deal with stress wisely**  
Stress often occurs when we have to do more work than what we are capable of accomplishing. The affect is that our body starts feeling tired which can highly influence our productivity.
- **Avoid multitasking**  
Most of us think that multitasking can be helpful in doing things in an efficient way, but the truth is that we do better when we just focus at one task
- **Start early**  
Most of the successful people start their day early as it gives them time to sit, think and plan their day. It is very helpful as in the morning, we are clear minded and fresh
- **Learn to say no**  
Politely refuse to all the additional tasks when you think you are overburdened with work
- **Plan regular breaks**  
Whenever you feel tired and stressed, take a break for 10-15 minutes. Schedule your break times. Take a walk, listen to some music, or do any of your hobby which can relax you. Even better you can spend time with your family. Good time management requires a daily practice of prioritizing tasks and organizing them in a way that can save time while achieving more. All these strategies will help to manage time and do things in a more productive manner

**Efforts by: - Srishti Jindal**

# अहसास

ना दिन देखा ना रात,  
कागज़ का था साथ ।  
बह गई एक बात,  
उस रात, उस रात ।

सर पर था माँ. बाप का हाथ ,  
कागज़ और कलम का साथ ।  
बनादि अनोखी सी एक बात,  
ना कल देखा ना आज ।  
क़दरत का यही एक असूल ,  
बगीचे में खिले लाखों. करोड़ों फूल ।  
ख़ुदा को सब हैं कबूल ,  
सभी रहे थे ये बात भूल ।  
अनदेखी को पल. पलरखा था हमने याद ,  
मूँह का बिगाड़ बैठे थे ये स्वाद ।  
ख़ुदा की यही एक आवाज़ ,  
बोल बैठे, मूझे वो उस रात ।  
मूझे वो उस रात ॥

- जीवनजोत कौर

## AMAZING FACTS

- 1.) 10 gallons of carrot juice can kill a person .
- 2.) 40 million years ago penguins were 6 feet tall .
- 3.) Dogs can learn up to 250 words and gestures .
- 4.) Sharks are older than trees .
- 5.) Italy has 24 native languages in use today.
- 6.) World's most densely populated island is the size of two soccer fields .
- 7.) The longest place name on the planet is 85 letters .
- 8.) Africa and Asia are the home to 90 percent of the world's rural population.
- 9.) There are 41 countries that mark the sign language as official language .
- 10.) Facebook has more users than population of U.S, China and Brazil combined.

**STAY SAFE, BE PREPARED**

**We may be young or old, But we  
must be bold, Against the enemy  
untold. We can't go to malls, Nor  
can we go to waterfalls, Because  
this virus is a- scaring, Sending our  
spines into a shivering. If you have  
to go out, think twice, Wear your  
mask, be wise. After coming home  
sanitise, And wash your hands  
thrice. COVID-19 is the name, It is  
playing a hide-and - seek game.**

# कविता - राखी का त्योहार

राखी का त्योहार है आया  
अपने संग खुशियों का भंडार है लाया  
बहन-भाई का यह त्योहार है प्यारा  
भाई है बहन का राज दुल्हारा  
मनों, दुनों का यह प्यारा नाता  
यह त्योहार हर साल है आता

जैसे ही सूरज चढ़ आया  
सामा-सामी, मामा-पापा व  
अन्य रिश्तेदारों को मिलवाया  
आशीर्वाद लिया भगवान का  
और फिर मनाया पावन बंधन संसार का  
साली, रानी, राखियों से सजी थी थाली  
और बहन के पावन राखी बाँधने पर  
सबने बजाई ताली

फिर भाई उपहारों की बारी  
बहन ने खोली भाई की तोहफ़े की दारी  
भरे थे उसमें चॉकलेट, मिठाई और कचौड़ी  
बहन के मुख पर मुस्कान छाई  
बारी-बारी सबको मिठाई एवं चॉकलेट खिलाई  
भाई ने स्नेहपूर्ण दिए रूपए  
बतौरा मुख अमूल्य

राखी कार्यक्रम का भंत चला आया था  
पर पवित्र बंधन तो सदा ही था  
सभी रिश्तेदारों ने ली विदाई  
बारी-बारी खाके मिठाई  
राखी का त्योहार है आया  
अपने संग खुशियों का भंडार है लाया

# CORONA VIRUS

Corona virus has infected our planet ...  
Let's join our hands together to fight it !!  
There are no medications or vaccines for it ...  
So stay at your home for your benefit !  
People kill animals and eat cats and bats ...  
Let's quit this habit , as it is really bad !!

Corona is the revenge of mother nature ...  
So learn from your mistakes , for your better future !  
Precaution is better than a cure ...  
So take care of yourself for sure !!

Don't do handshakes , instead say NAMASTE ...  
That's our Indian culture anyway !  
Let the world know the power of Indian cuisine ...  
Which has ingredients to kill the germs it means !  
Boost your immunity and kill this demon ...  
Consume Indian herbs for this reason !

Hope this pandemic comes to an end ...  
Let's all pray to the almighty on whom we all depend !!

By- Ishika Panghal

# Our Social Writers

## WOMEN EMPOWERMENT

Women Are The Most Important Part Of Our Indian Culture, Whether She Is Our Mom, our Sister Or Even Our Wives... Women Have Been Lagging Behind In The Main Stream Of The Society Because Of Some Stereotypes And Discrimination On The Grounds Of Gender, Race Etc ...People With Orthodox Thoughts Now Also Deny The Fact That The Women Are Much More Capable Than Men.. Women Take Part In Each Stream Of The Society Whether Its Being A Chef, IAS Officer Or Even A Pilot.. Even If We Take Our Bollywood Industry In Consideration... Many Of The Biopics Are Made With The Motive To Express The Involvement Of Women In Every Stream Of The Society.. Encouraging And Supporting Women Make Them An Important Part In Our Society ... Beti Bachao Beti Padhao Movement Was Started To Stop The Killing Of Girl Child In The Womb Of The Mothers Whether Forced By Their Husbands Or By Their Own Agreement. Girls Shouldn't Be Stuck In The Four Walls Of The House But Must Be Given A Chance To Live Freely In The Society ...Earn Their Living And Encourage Other For The Same

By- Eshan Batta

## **Article on Pollution**

**Pollution is the addition of unwanted substances into the environment that results in damages to the ecosystem. It is the process that makes nature's resources such as land, water, air or other parts of the environment unsafe or unsuitable to use. The current stage of the earth that we are seeing is the cause of centuries of exploitation of earth and its resources. Moreover, the earth cannot restore its balance because of environmental pollution. The human force has created and destroyed life on earth. Human plays a vital role in the degradation of the environment.**

**The environmental pollution, directly and indirectly, affects the lives of humans and other species. These living beings co-existed on the earth with human from centuries.**

### **Effect on Air**

**Carbon and dust particles string up with the air in the form of smog, damaging respiratory system, haze, and smoke. These are caused by the emission of industrial and manufacturing units by burning of fossil fuels, vehicle combustion of carbon fumes. Moreover, these factors affect the immune system of birds which become a carrier of viruses and infections.**

**Besides, it also affects the body system and body organs.**

**Carbon and dust particles string up with the air in the form of smog, damaging respiratory system, haze, and smoke. These are caused by the emission of industrial and manufacturing units by burning of fossil fuels, vehicle combustion of carbon fumes. Moreover, these factors affect the immune system of birds which become a carrier of viruses and infections. Besides, it also affects the body system and body organs.**

### **Effects on Land, Soil, and Food**

**Human's organic and chemical both waste harm the land and soil with its decomposition. Also, it introduces some chemical in the soil and water. Land and soil pollution mainly caused by the use of pesticides, fertilizers, soil erosion, and crop residues.**

## Effect on Food

Because of contaminated soil and water, the crop or agricultural produce also get toxic. Furthermore, this contaminated food effect our health and organs. From the beginning of their life, these crops are laced with chemical components that reach a mass level until the time of harvest.

## Effect on Climate

Climate change is also a cause of environmental pollution. Also, it affects the physical and biological components of the ecosystem.

Moreover, ozone depletion, greenhouse gases, global warming all these climate changes are a cause of environmental pollution.

Besides, their effect can be fatal for our upcoming generations. The irregular extreme cold and hot climate affect the ecological system of the earth.

Furthermore, some unstable climate changes are earthquakes, famine, smog, carbon particles, shallow rain or snow, thunderstorms, volcanic eruption, and avalanches are all because of climate change that happens all because of environmental pollution.

In conclusion, man has exploited the wealth of nature at the cost of his and environments health. Also, the effect that is now emerging rapidly is all because of the activities of humans for hundreds or thousands of years.

Above all, if we wish to survive and continue our life on earth then we have to take measures. These measures will help in securing our as well as our next generation future.

Presently we are suffering from pandemic COVID-19 but it has become a gift for environment i.e land, water, air, soil during lock down period as we breathe clean air, saw clear sky, clean water and clean land.

In India, the coronavirus cloud has a silver lining: clear blue skies.

By- Shrutí Gautam

**INDEPENDENCE DAY:**

**UNKNOWN FACTS**

**EVERY INDIAN SHOULD  
KNOW**

## 1. THE INDIAN NATIONAL FLAG

Everyone is aware by the fact that it was on 15 August 1947 our Indian flag was hoisted, however, this is not true. The national flag was first unfurled in Calcutta on 7th August 1906 at Parsee Bagan Square. At that time the flag had three horizontal stripes that of red, yellow and green colour. The red strip was at the top which had 8 white lotuses imprinted on the flag, while on yellow Vande Matram was written in Hindi and green consisted of the white sun on the left while white crescent and stars on the right side of the flag.

## 2. NATIONAL ANTHEM

We all know that our national anthem was written by Rabindranath Tagore, however, very fewer people know that it was first written for King George V, to pay him homage. The Bengali version of Jana Gana Mana was first sung during Calcutta session of Indian National Congress and later on, in 1950 it was adopted as India's national anthem.

## 3. FIRST PRIME MINISTER OF INDIA

As we all know Pandit Jawaharlal Nehru was the first Prime Minister of India, but do you know the story behind it, no, then let me tell you all. When the first elections took place for the PM's post, it was Sardar Vallabhbhai Patel who won the elections, however, Nehru didn't want to be secondary and because he was close to Mahatama Gandhi Nehru was made the Prime Minister of India and Patel was pulled down.

## 4. THE MAKER OF NATIONAL FLAG

We are of the notion that it was Mahatama Gandhi who designed our Indian flag, whereas, in reality, the person who designed our flag was Pingali Venkayya in 1921. A freedom fighter who designed the flag showcasing two colours that is red and green which represented two communities respectively. But later on, Gandhi asked him to add white colour in the middle with a spinning wheel known as Ashok chakra. According to him, white will represent remaining communities while the wheel will be the sign of progress.

## 5. WHO ALL CELEBRATE INDEPENDENCE DAY ON 15TH AUGUST

Well, we are not the only country who celebrate their independence day on 15th August. India shares its day with five other countries South Korea, North Korea, Liechtenstein, Bahrain and Republic of the Congo. Its true India shares the same date, however, they don't share the years.

## 6. INDIAN FLAG

Well, this might leave you baffled, as till date, our flag is manufactured at the same place from where it was first manufactured. The Khadi Development and Village Industries Commission is the only licenced company in production and supply of India flag. The only change they brought to the flag is initially it was made out of Khadi and now it is made of cotton. Karnataka Khadi Gramodyog Samyukta Sangha is located in Dharwad.

Starting with a thank you note for all the doctors...

## Little Praising Can Have a Big Impact - A Thank You Note

*Someone has rightly said that, "There is only one person in this world that can bring life in this world and save a life from exiting this world." And it is needless to say that the credit of this wonderful job goes to a country's doctors. Though they do an exceptionally brilliant job but they get strength to do so from appreciations of whom they treat, whom they have treated and ones they might treat or, simply a admirer, whom they don't even know and that's why when a patient leaves smiling from his doctor's clinic, the doctor has been successful in bringing some serenity to his mind. And looking towards the scenario of the world today, our country's doctors are working really hard these days and just a small "THANK YOU" can bring a huge a difference in their hectic days. So, if a small thank you can help, then we mustn't hesitate and just say **THANK YOU DOCTORS!!***

**ANANDITA CHAUHAN**

Continuing with an autobiography of the coronavirus: What is it? Where has it come from? What does it want?

## Autobiography of THE CORONA VIRUS

*Hello guys! You all must be knowing me. I am your new nemesis, THE CORONA VIRUS. Let me narrate to you an ancestral story of mine. Ever since those two-eyed earthlings invented the MICROSCOPE, they could see us microbes. Soon, they classified and characterized all the microbes. We, the viruses were considered smaller than others. Those puny earthlings even dishonored my ancestors by calling them neither living nor non-living. You all must have patted your backs for the above achievements. But enough is enough! So, now I, the Corona Virus along with my family have come to avenge our insults. We will wipe out the entire human race from the surface of the earth. But, if somehow you manage to postpone your end, then you're lucky because we'll come generation after generation to take revenge.*

**-MAYANK SINHA**

Poetry is the expression of creativity; So continuing with a poetry.

*Students' life is full of fun, To work and play.  
Their day begins with a prayer, And ends with play.  
They go to school with a heavy bag on their back.  
And water bottles in their hand.  
They sit in the class and toil all day.  
In school they make many friends,  
And learn many trends.  
They even learn values, Of love and life.  
They study all day,  
To be bright like sun rays  
Like the Fish on sea-bay.*

*Studies develop their brain power, Sports develop their will power.*

*They can do both,  
Without any pain.*

*They use pens,*

*They use papers,*

*They can draw many things,*

*And make many colourful rings. But when March month comes, They study all day.*

*They work for appreciation.*

*And sacrifice lot of Recreation.*

*East or West,*

*Students' life is the best.*

*They can start their day with a prayer, And end with lots of play.*

## A Teaspoonful Of Neutron Star Would Weigh 6 Billion Tons...

A neutron star is the remnant of a massive star that has run out of fuel. The dying star explodes in a supernova while its core collapses in on itself due to gravity, forming a super-dense neutron star. Astronomers measure the mind-bogglingly large masses of stars or galaxies in solar masses, with one solar mass equal to the Sun's mass (that is,  $2 \times 10^{30}$  kilograms/ $4.4 \times 10^{30}$  pounds). Typical neutron stars have a mass of up to three solar masses, which is crammed into a sphere with a radius of approximately ten kilometres (6.2 miles) – resulting in some of the densest matter in the known universe.

-ISHANSH BANSAL

# Wave Particle Duality

What do you think that what is Light... A particle or a wave???

Let's find out .....

During the year 1890, a group of physicists including Max Planck, Albert Einstein, Louis De Broglie, Arthur Compton, Neils Bohr found something new about light. Earlier, light was considered to be a wave , but these physicist observed that light even showed a Particle- like behaviour . Also, a renowned physicist named Thomas Young and a British Polymath, who made notable contributions to the fields of vision, light, solid mechanics, energy etc.; made an experimental device called *Young's Double -Slit experiment* .

In this experiment, an electron or a light ray was made to pass through the slits, if the light rays would form a diffractive pattern, then it will be a wave and if they accumulate over each other without forming a pattern, then it will be a particle.

When the light rays were passed through the slits ; it was observed that, which they passed the light rays from each slit, rays were accumulating over each other without forming a diffractive pattern and it was concluded that light was a particle (Photon).

Here these physicist, got confused that whether light is a wave or a particle.

Therefore, one of the physicists among them named Louis De Broglie gave the hypothesis that what if light is both wave and a particle. Not even this, but he also said that everything in this universe including dark matter and anti-matter, exhibits both wave and a particle - like nature. This was the stepping stone for Quantum Mechanics . This is field of science that tells us about the nature of objects at subatomic states and is nowadays , used in phones, radios etc.

CREATIVE CORNER!!! ART, CRAFT,  
TRICKS AND MORE!

PLZ COPY AND PASTE THE LINK IN YOUR BROWSER

ENDING, WITH A HUGE THANK YOU TO THE BELOVED TEACHERS FROM OUR CLASS

You are the way through which an person learn  
.Thank You for being so calm and patient to us. You  
are working so hard even in this pandemic. Thanks  
for everything . You made me overcome my school  
fear. You always encouraged to do my work and  
taught me to do hard work . You sometimes scolded  
me but that was for my benefit. At the last I just  
wanna say one thing thank you so much. **ADITYA JAIN**

*You took my hand, opened my mind and touched my heart.*

*You are not only our teacher... but friend, philosopher and guide.*

*I will always be grateful for your love and support. **SUHANI BOXI***

Our parents gave us life and it was you who taught us how to live it. You introduced honesty, integrity, and passion to our character. You inspired me to reach my goals and achieve my dreams, you saw my potential, you sparked my imagination, you gave me wisdom and instilled in me a passion for learning. Thank you for everything.....Happy Teachers' Day!"  
**ISHANSH BANSAL**

You are my 'Guru' and I am your devotee,  
You give me everything and expect nothing.  
You are the one the who inspires me and  
You are the one who turns my dream into reality.  
Whatever you have done for me is invaluable  
and all I can pay back with is a **THANK YOU!**  
**ANADITA CHAUHAN**

Teachers are like our second mother...They're always there for you and know exactly what you need and when you need it...Thank you for always being so supportive....**HAPPY TEACHER'S DAY!**

**SANSKRITI KHATTRY**

**I am grateful to you for everything you taught us this semester. I enjoyed our talks in class, and your assignments were hard, but I learned a lot from you.**

**EIVAKSH AGGARWAL**

**I really appreciate my teachers for the hard work they are putting in lockdown time. The concern of teachers towards our studies and their guidance is remarkable....MANNAT DHAND**
