Lord Krishna raised the Govardhan mountain to save the Brajvas from the wrath of Indra....Lord Krishna would usually eat 8 food items every day, but he didn't consume any food during these seven days. So, at the end of the seventh day, everyone made Krishna ji a total of 56 dishes (8 multiplied by 7), out of gratitude. Since then the tradition of "chappan bhoj" started.

TODAY'S JOKE

NATE : Why was school easier for cave people?
KATE : Why ?
NATE : Because there was no history to study!

विद्यार्थी नामा

विद्यया में देखे अधिष्ठा , वह तो है विद्यार्थी ।
कभी न मिले किसी इच्छिष्ठा में विद्यया , तो वह भी विद्यार्थी ।
विद्यया में ही बना जाय तो , वह तो है विद्यार्थी ।
विद्यया ही ही तो निकल के सध्याँ में वह भी विद्यार्थी ॥
गुरुओं के मन को भायें वह भी एक विद्यार्थी ।
अध्यायक विमाने पीछा धुराँ , वह है विद्यार्थी ॥

जबके दिलों में तो बन जाय वह भी है विद्यार्थी ।
नाम देने में विष्ठा दिन बुरा जाय वह विद्यार्थी ॥
राज्ये खेने के बाद मोबर गुरुक रखने जल्दी , तूने जाल विद्यार्थी ।
रोपहर के एत कने तक इतने कल भी विद्यार्थी ॥
विद्ययालय की शान बढ़ायें , वह है विद्यार्थी ।
विद्ययालय जो बन उठायें - जाय , वह भी विद्यार्थी ॥

तिनसु विवेकशक्ति और अध्यापीय , तब विद्यार्थी ।
विद्यया में विगुल रहे , वह भी विद्यार्थी ॥
विद्यया में ही गुम जाय , वह है विद्यार्थी ।
विद्ययालय जैसे विद्यया पसराय , वह भी है विद्यार्थी ॥

मन सुकर , मन्निष्ठा भी सुंदर , वह तो है विद्यार्थी ।
बुद्धि का और नाम विवेकर , वह भी विद्यार्थी ॥
विद्यया में भुषणा रूप बढ़ायें वह विद्यार्थी ।
विद्यया क्या है सध्याँ न पण , वह भी है विद्यार्थी ।

The universe is a crazy place. In fact, it's probably the craziest place you've ever been. So let's head back into the space and know 10 facts about the universe that will blow your mind.

- ❖ The word UNIVERSE derives from the Old French word *univers*, which in turn derives from the Latin word universum, which means all together, turned or combined into one.
- ❖ If you unravelled the entire DNA in your body, it would span 34 billion miles, reaching to Pluto (2.66 billion miles away) and back ... 13 times.
- ❖ The footprints on the moon will stay there for the next 100 million years.
- ❖ Water ice exists all over the solar system.
- ❖ The stars, planets and galaxies that can be detected make up only 4 percent of the universe, according to astronomers. The other 96 percent is made up of substances that cannot be seen or easily comprehended.
- ❖ According to the best estimates of astronomers, there are at least one hundred billion galaxies in the observable universe.
- ❖ The Universe Has Echoes of Its Birth.
- ❖ The universe is filled with invisible stuff.
- ❖ Venus has super-powerful winds.
- ❖ Pluto is smaller than the United States.

Enigmatic Facts

- In 1936 Olympics, 2 countries co-incidentally had flags which were very much similar to each other. Those countries were "Haiti" and "Liechtenstein". Due to this, in the next year, Liechtenstein added a crown in its flag so that it can differentiate from Haiti.
- There is a pizza company in New York City called "Venice PIZZERIA" and this company serves pizza in a pizza box and you can also eat that pizza box without any worries.
- According to a report, these are the top 10 most hacked passwords:
 - A. 123456 – used by 23 Million people
 - B. 123456789 – used by 7.7 Million people
 - C. qwerty
 - D. password
 - E. 111111
 - F. 12345678
 - G. abc123
 - H. 1234567
 - I. password1
 - J. 12345

This means we have to keep our all online account passwords secret and hard.

CONTINUED

Enigmatic Facts

- Do you know that number 9 is also known as a "Magical Number" because : {see this}

$$9 * 1 = 9$$

$$9 * 2 = 18$$

$$9 * 3 = 27$$

$$9 * 4 = 36$$

$$9 * 5 = 45 \text{ and so on...}$$

So the fact is that if we add the digits of 9, 18, 27 etc. individually, the outcome will be 9. $9+0 = 9$, $18 \sim 1+8 = 9$, $27 \sim 2+7 = 9$ and so on. The outcome always weirdly is 9 only.

- Why do we all say "HELLO" in the beginning when we talk to somebody at telephone or mobile phone? The inventor of telephone, i.e., Alexander Graham Bell wanted this world to say 'Ahoy hoy'. But a few years later, inventor of light bulb, i.e., Thomas Edison wanted everyone to say 'Hello'. Some were on Alexander's side and some were on Edison's side. But due to some reason, the world accepted 'Hello' and 'Hello' became famous. This is the reason why do we all say "HELLO" in the beginning when we talk to somebody at telephone or mobile phone.
- The room, in which we are living, just think about it. Which object in the room is the dirtiest object or which has the highest no. of bacteria accumulated on it? The answer is- your "T.V. Remote".

जंता कफर्य

२२ मार्च हुआ था जंता कफर्य के नाम..
पीएम ने लाइव आकर सबको दिया था ये समाचार।
कोरोना की दस्तक से अंजान था पुरा संसार,
चीन से शुरू हुए इस वायरस ने मचा दिया है हाहाकार।

महीने बीत गए हैं घर पर बैठे,
ना जाने कौन लापरवाह लोग है इसे फैला रहे।

बिना मास्क के जाना बाहर अब एक अपराध है,
वैक्सीन बनाने के लिए वैज्ञानिक लगा रहे अपनी पूरी जान है।
२०२० माना ही गया एक मनहूस साल है।
एक के बाद एक हमारे लिए चुनौती लिए खड़े भगवान है...
हम सबको हिम्मत और सूझ बूझ से लेना अब हर कदम है,
आईए आज मिलके डॉक्टरों, पुलिस, सरकार का करते शुक्र और सम्मान है।

- प्राची जगोता IX डी

You are...

You are fat, you are ugly, you are worthless.

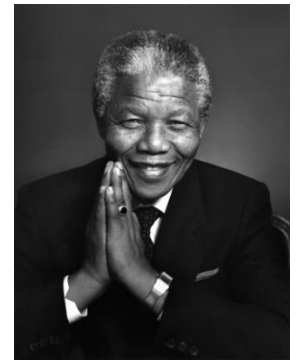

*These must be just words for you.
But these are swords for me which leave scars,
which I hide. A scar fade but
I have a new one every day.
I wanna forget each word you said but
your voice screams in my mind.
To you this must be fun but to me it's a prison.
I don't know for how long I can bear this.
But inside me I hear a voice which tells me to grow and
to show my true worth too.*

-Angelina Monga IX D

INTERNATIONAL NELSON MANDELA DAY

known and loved around the world for his commitment to peace, negotiation and reconciliation, Nelson Rolihlahla Mandela was South Africa's first democratically elected black president (1994-1999). He is also known as Madiba.

Mandela was an anti-apartheid revolutionary, lawyer and political leader, as well as a philanthropist with an abiding love for children. Mandela was born into the Xhosa royal family on 18 July 1918. Thus, 18 July is celebrated as International Nelson Rolihlahla Mandela. He is awarded with many rewards that includes Bharat Ratna (1990) and Nobel Peace Prize (1993).

RAKHI

- ◆ Raksha Bandhan is not only limited to Hindus only, it is also celebrated by Muslims, Buddhists, Christians and Sikhs also.
- ◆ It is celebrated on the full moon day of Shraavan Purnima in around the month of August.
- ◆ Rakhi is not only celebrated in India, but also in Nepal, Mauritius, USA, Sri Lanka and UAE due to its nature of representing a universal bond between sisters and brothers.

The story of Lord Krishna and Draupadi:

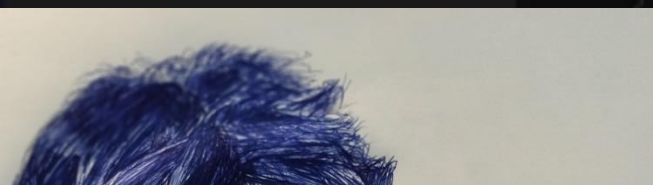

According to the old belief, Lord Krishna once had a cut on his hand. Immediately when Draupadi tore a piece of cloth from her saree and tie it on the Lord Krishna's hand. In return Lord Krishna promised that he will protect Draupadi in any conditions. Lord Krishna protected her during Cheer Haran. From this day festival of Rakhi is celebrated every year.

The styles, designs, patterns and materials used in Rakhi have undergone a tremendous change over the years. Rakhi is no longer the simple thread of cotton or silk. Today, there are many different types of Rakhi available in the market. The significance of the festival is the same for everyone. Depending on the living standard of people, the types of Rakhi, its cost and the materials used in preparing those Rakhi is different. Some styles in modern day Rakhi are:

- Cartoon or superhero Rakhi
- Toy Rakhi
- Gold, Silver and Diamond Rakhi
- Rakhi bracelet.

GOLDEN TIPS FOR STUDENTS

3

 **GOLDEN TIPS FOR STUDENTS** 

Be clear and determined to your goals and ambitions.

Work hard to achieve your goals.

Never let your personal intentions or emotions come in your way to success.

Always feel contented with what you have.

Communicate nicely with everyone.

Respect your younger and the elder ones.

Always set priorities for your studies.

Follow a time table. Eat healthy food.

Be connected to your culture and traditions.

Spend quality time with your family.

Yashi Bhardwaj

FACTS

Russia has more surface area than Pluto.

The Burj Khalifa is so tall you can see two sunsets from it in one day.

Armadillos have shells so hard they can deflect a bullet.

Jallianwala Bagh Massacre

FACTS ABOUT COVID-19

Facts About COVID-19

- Coronavirus disease (COVID-19) is an infectious disease caused by a newly discovered coronavirus.
- Most people who fall sick with COVID-19 will experience mild to moderate symptoms and recover without special treatment.
- The virus that causes COVID-19 is mainly transmitted through droplets generated when an infected person coughs, sneezes, or exhales. These droplets are too heavy to hang in the air, and quickly fall on floors or surfaces.
- The virus can survive on different surfaces from several hours (copper, cardboard) up to a few days (plastic and stainless steel). However, the amount of viable virus declines over time and may not always be present in sufficient numbers to cause infection.
- The incubation period for COVID-19 (i.e. the time between exposure to the virus and onset of symptoms) is currently estimated to be between one and 14 days.

SYMPTOMS OF COVID-19

- fever
- dry cough
- tiredness
- Less common symptoms:
- aches and pains
- sore throat
- diarrhoea
- conjunctivitis
- headache
- loss of taste or smell
- a rash on skin, or discolouration of fingers or toes

DO'S AND DON'TS

Do's

- Wash your hands regularly.
- Cover your Mouth and Nose.
- Consult a doctor if sick.
- Stay indoors.
- Avoid close contact with anyone.
- Always wear a face mask.

Don'ts

- Avoid close contact with anyone.
- Avoid using public transport
- Do not panic.
- Don't touch your Face, Mouth and Nose.

SKETCHES

POEM

What to do? When u feel low,
When the life gets too fast or things go slow,
When we sigh,
The mood no more high.

With whom to talk ?
On which path to walk ?
What to do? When it gets hard,
How to get apart?

The melancholy sadness,
Of the atmosphere around,
Is strong enough,
To burry a living soul in the ground.

Sitting quite and lone,
Is not always foolish,
Diving into yourself,
Makes thoughts flourish.

Like a single beam of light,
Overcomes the darkness,
A single ray of hope,
Enhances mind's brightness.

A strong will to tear,
The fears apart,
A mentality to deal with life,
When it gets hard.

kirti Arora

I went to school in a school van which I liked,
I went to school in it since I was a child.

I had many friends which were like morning
birds,
In the evening they were like buffalo herd.

One of my friend was the van driver,
Every Time I looked at him he smiled.

Children fought for the front seat as two
nations collide.
But still they together recide.

One of my friend was as small as a no moon
tide, One of my friend was as small as a no
moon tide,

But his ambition to gain knowledge is the
thing he was never able to hide,
We talk about space and tried to know
what there lied.

On a rainy day when the Van was lately
arrived.

My friend driver drove van so fast that we
all got a jolty ride.

This crazy Corona did not let me go to my
van God forbids.

But it can not erase the memories in my
mind.

I had a van which I liked .

STUDENTS SPEAKING ABOUT PROBLEMS/ISSUES OF SOCIETY

PROCASTINATION

It is tempting to notice that procrastination has become a trend in recent times. First of all, procrastination is the practise of delaying things. We tend to delay or postpone things which we think is boring or a burden on us. Nowadays, it has become a trend for us, whether it is school or college, office or home, we are too lazy to complete what we have included in our 'TO DO LIST'.

In schools, we find students and some teachers who postpone or delay their work, especially students, they say that, there is no time left to play, but in reality, they play the whole day. In colleges and homes and offices, we simply don't have energy to attend to all tasks. Procrastination results in precious time being wasted, that could have been put to good and profitable use. there is the fact of wasted opportunities. Procrastination is all about avoiding useless things and waiting till the last minute. By doing so, a person stands to loose any opportunities that could have been taken advantage of if only it was done on time. Procrastination can be frustrating especially once the person realises that so much could have been accomplished if only it was done on time. Not only that, a person who procrastinates is also unable to make good decisions. This is because the pressure to take a decision is so much and the person may find himself making just a decision because he absolutely has to.

This is when his decision is not wise. Instead they take emotional that can ruin one's life. Finally, procrastination leads to carrying out an unhealthy lifestyle. If you show procrastination during exercising and diet, you may gain more kgs instead of loosing them. In the similar way, this practise if applied to other fields may lead us to destroy our entire life.

Procrastination thus should be prevented and one should be given training to resist it from the early years, that is, the school years, as it is said, THE EARLY IS THE BETTER!

AARSHI MUKHERJEE
