HOLI

FESTIVAL OF COLORS

- Holi is the great festival of colors, celebrated every year by the Hindu people in India. Holi festival falls every year in the spring season in the month of Falgun (or March). It is one of the happiest festivals of the Hindus like Diwali. It is celebrated every year on the first day of Chaitra month. The whole environment and nature looks very beautiful and colourful at the time of holi.
- Holi festival celebration starts at the last day of Phalgun by the Holika Dahan in the evening and colour play in the next morning. Children wait for this festival with lots of courage and happiness and starts collecting colourful colours, balloons, bucket, pitchakri, etc to play holi. They also collect some sticks, straws and co-dung cakes in the mid of cross road and make a big heap for the ceremony of Holika Dahan.
- They get together at the place in the night and set fire in the huge heap of sticks, straws and co-dung cakes to celebrate Holika Dahan. Women sing ceremonial songs during the Holika Dahan. Everyone becomes in happy mood and wait for the morning of next day to play holi. We sprinkle watery colors to each other, throw color filled balloons, etc. At this day everyone forgets the social distinctions and meets and welcomes each other with lots of tasty foods and sweets.

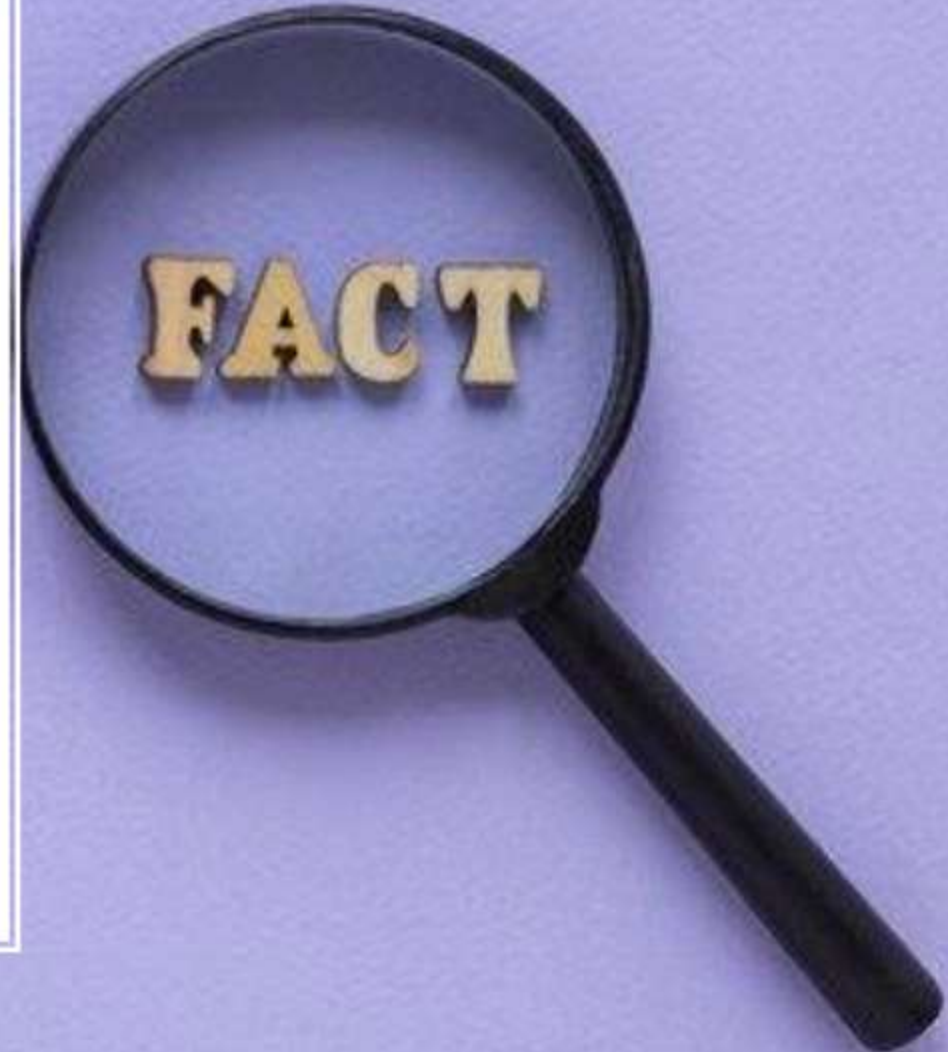

MONTHLY FACTS

- 1) Originally, the Roman calendar had only 10 months, and it excluded January and February.
- 2) January has two zodiac signs – Capricorn, which is until January 19, and Aquarius, which is for the rest of the month.
- 3) The western zodiac signs in February are Aquarius which is until February 19th, and Pisces, which is until February 20th
- 4) Over time, the length of February kept changing. At one point, it had as little as 23 days.
- 5) Of all the words you can misspell, February is one of the most misspelled words in the English language. Even the White House has misprinted the word “February” before in a press release!
- 6) The odds of being born on February 29th are about 1 in 1,461. Those born on a leap day can be called a “leaper” or “leapling”.

-Saksham Garg

English Facts

- A new letter is added to the dictionary every 2 hours.
- The longest English word: Pneumonoultramicroscopicsilicovolcanoconiosi which actually is a lung disease caused by the inhalation of silica or quartz dust.
- The most used word in English is 'I'.
- The word 'good' has almost 380 synonyms.
- The word 'synonym' actually has no synonym.
- There are 'ghost words' in English which do not have a meaning.

Is it true that our brains rot if we play video games: An experiment.

This article is specifically for the PS5 lovers out there. When you play video games your parents might be saying you in background “switch it of your brain will rot ” well it happens with me sometimes. Scientists have said or you can say proven that video games can change the way your brain works, you may be having Headaches or eye pain well this can be temporary or permanent but there is no such thing that your brain would literally rot like fruits. Human organs only start rotting after a person is dead and after 2-3 hours after death. So don't worry that there would be mushrooms growing from your ears! The phrase “your brain will rot” is a metamorphic phrase meaning it does not literally mean what it says meaning that you could have permanent headaches, eye pain, blurry vision, need of contact lenses or specs but no rotting of brain. This article does not mean that you go and say to your parents “you are wrong” they are correct that you may spoil your eyes and have permanent specs. Plus test that would you be able to pass the same test after playing video games for two hours.

Lohri

Lohri is celebrated in North India, especially in Punjab. Lohri is linked to the Vikrami calendar, and is celebrated the day before the festival of Maghi celebrated in the rest of India as Makar Sankranti. Lohri was earlier known as Tilodi. Lohri is celebrated in Punjab as harvesting festival and the end of winter season. Lohri is dedicated to gods Indra, Agni, Surya and Lakshmi. The festival is celebrated by lighting bonfires, eating festive food, dancing and collecting gifts. A fire is lighted on the eve of Lohri in the evening. A popular folklore links Lohri to the tale of Dulla Bhatti.

Republic Day

Every year India celebrates its Republic day on 26th January. It is the national festival of India. On this day in 1950, our constitution came into effect. This year in 2022, we celebrated the 73rd Republic day of India. On 26th January, the president of India hoists the national flag in New Delhi at the Red Fort. This year again, for the second time, there was no chief guest invited at the Republic Day celebrations because of the ongoing Covid - 19 pandemic. A magnificent parade is held at the India gate in New Delhi every year. Republic Day is celebrated in schools and colleges with enthusiasm and joy. The honorable president of India gives awards to the brave soldiers of the country. The Republic Day teaches us to live in unity and peace. The Republic Day is celebrated not only in the country but all over the world by Indians with great pomp and show.

Basant Panchami

Basant Panchami is celebrated across various regions in India by different methods. Some worship the idol of goddess Saraswati, some have a bonfire, some go to religious places etc. In the word 'Basant Panchami', 'Basant' means spring and 'Panchami' means the fifth day. Many Indian schools and colleges celebrate the festival of Basant Panchami with great enthusiasm. Goddess Saraswati is the symbol of learning, arts and music. In Northern India, Saraswati pooja pandals are organized, people visit there with joy. People join the holy rituals at temples and pandals wearing yellow dresses. In West Bengal, Tripura, Assam and Nepal, the festival is celebrated with great joy. Art and music programs are also conducted at various places. Many families celebrate their babies' first reading and writing event

GURU RAVIDAS JAYANTI

The year 2022 marks the 645th birth anniversary of Sant Ravidas. This year it was celebrated on 16th February. It is the annual focal point for the Ravidassia religion. Ravidas was an Indian mystic poet-saint of the bhakti movement and founder of the Ravidassia religion during the 15th to 16th century CE. To celebrate the occasion, Amritbani Guru Ravidas Ji is read and a special aarti is performed by the followers.

-By Keshav

Guru Ravidas Jayanti

Guru Ravidas Jayanti celebrated on the birth anniversary of the Ravidas Guru. It is observed on Magh Purnima as per Hindu calendar. Ravidas was born in Seer Govardhanpur village, Uttar Pradesh. Ravidas was born in 1376 and his parents are Santoh Dass and Kalsa Devi. Ravidas' wife's name was Smt Lana Ji and his son was Vijay Dass Ji. Guru Ravidas Jayanti 2022 will be celebrated on 16th February in India. Ravidas was a great saint as well as a poet and famous social reformer. On Ravidas Jayanti, followers of Ravidas do a special aarti at Ravidas temple. Sant Ravidas was involved in the Bhakti movement to reform Hinduism and Sikhism. Various schools celebrated the day by giving speeches and highlighting his work.

By Reet

GURU RAVIDAS JI

GURU RAVIDAS JAYANTI IS THE BIRTH ANNIVERSARY OF SANT RAVIDAS. BHAKTI MOVEMENT DURING THE 14th TO 15th CENTURIES. THE BIRTH ANNIVERSARY OF RAVIDAS IS CELEBRATED ON MAGH PURNIMA, THE FULL MOON DAY IN THE MONTH OF FEBRUARY

By Ronik

GURU RAVIDAS JAYANTI

Sant Ravidas Jayanti is celebrated as the birthday of Sant Ravidas. It is celebrated on a full moon day in the Hindu calendar month of Magh. The year 2022 marked the 645th birth anniversary of Sant Ravidas. Ravidas was a mystic poet born in an underprivileged family in Seer Govardhanpur village in Uttar Pradesh. Ravidas' wife's name was Smt Lana Ji and his son was Vijay Dass Ji. Ravidas Jayanti, followers of Ravidas do a special aarti at Ravidas temple. Sant Ravidas was involved in the Bhakti movement to reform Hinduism and Sikhism. He devoted his whole life in the service of his devotees. Ravidas Ji is well known for making efforts in eradicating caste system. He is well recognized as a good friend and disciple of Kabir Ji. His most well-known work is the chanting of poems and verses written by him in a common ritual on his Jayanti. Sant Ravidas was considered as a Guru that is 'father' in 15th and 16th century CE, in the regions of Punjab, Madhya Pradesh.

Book Review

Have you ever been to the sets of a film? If not, you'll love the book 'Nancy Drew Diaries – A Script for Danger'. Nancy Drew is one of my all time favorites and is also quite popular around the world. The story is about what happens when Nancy and her friends Bess and George are invited to the sets of a horror movie which is being directed by Alex Burgess – an old friend of Nancy. . Nancy is a teenage detective, so she naturally starts finding things fishy when they really aren't. But then, a series of ominous events takes place – explosions in catering, costumes streaked with blood and threatening notes scrawled on scripts. Who is behind all this? Will Nancy and her friends figure out? The book is not only thrilling but is also quite informative about how things work on a set. How its not only the actors working hard but a huge group of people working together. The story moves on with exciting twists and turns. The best thing about it is the story of every suspect which is explained well and that the story moves on in certain order which is what keeps you glued till the very end. The book is worth a read, especially for those who have a nerve for thrillers. And as for the spoiler, the most unexpected person is the culprit, so don't put anyone off your list.

Joke Shop

Teacher - Anil, recite the numbers from 1 - 10.

Anil - 1, 2, 3, 5, 6, 7, 8, 9, 10.

Teacher - Why did you leave out 4.

Anil - I heard on the news that 4 died in an accident yesterday.

Man - Is it okay if I cross your field instead of going around it? You see, I have to catch the 4:21 train.

Farmer - Sure, go right ahead. And if my bull sees you, you can even catch the 4:01 train.

At an art exhibition, Dinesh saw a woman accompanied by her 10 - year old son taking a long time to choose between his landscape painting and an abstract painting by his rival. Finally she decided to buy his painting.

"I guess you prefer nature," Dinesh said to the buyer.

"No," said her son. "Your painting's wider, so it will cover the stains on our wall."

Amit - I got a message on my phone and then it switched off by itself

Nancy - What was the message?

Amit - Low Battery.

Doctor - Have you been sleeping with the windows open, like I told you.

Patient - Yes, doctor.

Doctor - Good. So, with the windows open, the bronchitis should have disappeared by now.

Patient - No, doctor. So far only my laptop and mobile phone have disappeared.

LOHRI

- Lohri marks the end of winter wheat is the main crop in the northern part of India, which is sown in October and harvested in March. Farmers and their families celebrate Lohri in January, as it is the last month before the harvest of the rabi crops like wheat etc. Through the Lohri celebration, people try to show their attachment to Mother Nature. It is a very important day for the farmer as they pray for their good harvest. In the region of Punjab, the celebration of Lohri also marks the commencement of the new financial year. The very next day of Lohri, i.e., 14th of January, is known as 'Maghi' a day that means the beginning of the month, Magh. It is an equivalent festival of 'Makar Sankranti,' celebrated in other parts of the Indian Subcontinent. The first Lohri celebrated by newlywed or an infant represents a grand occasion, and close family people are invited for the feast and exchanging of gifts. On the Lohri people give an offering of dry fruit revri – a sweet made of sugar and sesame seed roasted peanuts. Til Ladoo and other foods to the fire as well as sharing them with their family and friends gathered around the fire. It has become a festival for the city dwellers, which gives them the reason to get together with their family members and spread joy. It is not even limited to Punjab or the northern parts but is also spreading happiness in big metro cities like New Delhi.

Paragraph written by: Akshara

REPUBLIC DAY

- Republic Day is a public holiday in India, when the country marks and celebrates the date on which the Constitution of India came into effect on 26 January 1950, replacing the Government of India Act 1935 as the governing document of India and thus, turning the nation into a newly formed republic. The day also marks the transition of India from an autonomous Commonwealth realm with British Monarch as nominal head of the Indian Dominion, to a fully sovereign republic in the Commonwealth of Nations with the President of India as the nominal head of the Indian Union. The Constitution was adopted by the Indian Constituent Assembly on 26 November 1949 and came into effect on 26 January 1950 with a democratic government system, completing the country's transition towards becoming an independent republic. 26 January was chosen as the date for Republic day because it was on this day in 1930 when the Declaration of Indian Independence (Purna Swaraj) was proclaimed by the Indian National Congress in lieu of the Realm status as a Dominion later instated by the departing British Regime.

HAPPY NEW YEAR

According to science new year is that the Earth has completed 1 whole round around the Sun or when Earth completes 365 rotations on its axis

For common people like us new year is the time we hope that the coming year may be the happiest of all. People who believe in God pray to give them and their family every happiness of the world. To make them succeed in life and they reach every height of success and this year most of us wish must be that this COVID should end and our lives be back to normal.

Some people make resolutions and promise themselves to do various activities and stop doing some activities which are affecting their present or may affect their future. Most people take the same resolution every year because of their immature behavior who think that their work could be done the next day and they break their promise every year.

For some people it can be a start of new life. Someone might be starting his/her new business or may be the first day of job or for children it might be their first day of school or college. Possibilities are endless but there is one thing in common that on this day everybody is happy and have a positive mood.

So, New year means that forgetting whatever good or bad happened in past and concentrating on our future.

Therefore, Past is our experience

Present is an experiment

And future is an expectation

Paragraph Written By : Arnav Gupta

BASANT PANCHAMI

- One of the most significant Hindu festivals is 'Basant Panchami'. It marks the start of the spring season. People across India celebrate this festival in a variety of ways, depending on their regional diversity. This festival is widely observed in India. In India, it is known as Basant Utsav. People dress in yellow to worship Goddess Saraswati. The arrival of spring is marked by yellow-flowered mustard fields across the country, thus many people wear yellow on this day. People go to temples to offer puja and eat prasad. Many parents mark the occasion by writing and reading their children's first words. Rituraj, the king of spring, is said to be welcomed during the Basant Panchami festival, according to Hindu mythology. It is stated that people feel ecstatic in the spring because of their good health and affluence. The day is significant for students since Goddess Saraswati is thought to bless them with success in their careers and education. The festival of Basant Panchami in Bengal is observed on a huge scale. On the fifth day of Shukla Paksha in the Magha month, Basant Panchami is observed. Basant Utsav is celebrated in January or February. The best season is said to be spring. Light spring breezes welcome late winters. It is said that this is the happiest period of the year.

Janus - The god who controls future and past

In ancient Roman religion and myth, Janus (/ˈdʒeɪnəs/ JAY-nəs; Latin: Ianus [jaˈnʊs]) is **the god of beginnings, gates, transitions, time, duality, doorways, passages, frames, and endings**. He is usually depicted as having two faces. ... Janus presided over the beginning and ending of conflict, and hence war and peace. The month January is named after him and it is well known for the gate of new beginnings because of the name of him. Rich red colour is associated to him.

How to prepare for exams:

Give your best

It's better to take an exam being over prepared for it and then find it easier than you expected, than to wish that you would have studied more.

Carry sufficient stationery

Bring extra stationery in case the one you're using fails. It saves your time from borrowing from other's during on exam.

Time management

When your teacher explains the exam structure, start planning how you will use your time for each section.

Elaborate

Always try to elaborate your answer. Support your answers with examples.

Don't panic

Don't get caught up comparing yourself with your classmates or friends. Staying calm will help you remember all that you have learnt!

Basant Panchami

By- Akshita

Basant Panchami

Basant Panchami is celebrated all over the country with great pomp. On this day Goddess Saraswati the "Goddess of Knowledge" is worshipped. This festival is celebrated every year at the beginning of the spring season.

History of Basant Panchami- There is an interesting history behind the reason for why we celebrate Basant Panchami. As per a popular belief, goddess Saraswati, who is said to be the deity of learning, music and art was born on this day and people worship her to achieve wisdom. Hence people are often seen celebrating Saraswati Puja on Basant Panchami.

In Bengal and Bihar, Goddess Saraswati is offered boondi and laddoo. Sweet rice with saffron and dry fruits is made in almost every house on this occasion. Mango wood, shripal (coconut), Ganga water, and baer are also offered, particularly by Bengalis. Traditionally, in Punjab, Maake ki Roti and Sarso Ka Saag are savored. In Bihar, people celebrate Saraswati Puja by offering delicacies like Kheer, Malpua and Bundi to the Goddess.

Yellow is believed to be the favorite color of the Goddess. Yellow-colored clothes are donned by people on this occasion while offering yellow flowers to the Goddess with a yellow tilak on their forehead. Yellow is also deeply associated with auspiciousness, wisdom.

THE TESLA MODEL π

Tesla Model π Could Be a Gamechanger

Elon Musk tends to gravitate between brilliant and crazy, making him a lot of fun to watch if you aren't an investor. Investors have way too many moments where they may regret their stakes in Musk's companies, given he makes the related securities and several cryptocurrencies far more volatile than they otherwise would be. One recent rumor that Musk has been emphasizing is the creation of a Tesla phone with a unique feature set. The phone makes a lot of sense given where Tesla is going, particularly as a hedge against Apple's rumored electric car.

The Tesla Model π

*The Model π is expected to have Qualcomm's high-end Snapdragon 8 series solution, colors that match Tesla car colors, operate better as a car key for Tesla autos than any other phone, and connect to Starlink. Typically, getting a Smartphone to connect to a satellite requires a large antenna and a far more powerful radio. However, if they could get it to work, it would provide a vast unique advantage to Tesla phone users who could get relatively high-bandwidth connections years before 5G is available to them. I think the better path would be to put the satellite connectivity into the car, which could better conceal the large antenna, and then have the phone connect through the car when a 5G network was unavailable or when you want to watch a movie (to get around data caps). Then the car gets an always-on satellite connection for remote operation and to report on attempted thefts or parking lot damage more reliably. I think the better path would be to put the satellite connectivity into the car, which could better conceal the large antenna, and then have the phone connect through the car. **Last but not least, with smartphones becoming keys to cars, a Tesla phone could be further integrated with your Tesla car. For instance, it could have dedicated buttons to lock, unlock, locate the vehicle, and scream for help using the car's external speakers to get attention. The phone would also help the car locate you if you had the autonomous feature and wanted it to pick you up, which would be particularly handy for those of us who forget where we park. As far as making a phone that worked out of the box with Qualcomm's help, Tesla starts with market-leading phone technology and would need to add the car features, which they are certainly more than capable of doing.***

'सोने से भी कीमती है पानी'

मनुष्य के लोभ के कारण यह धीमी गति से विनाश की प्रक्रिया में है। पानी की कमी और प्रदूषण के कारण पशु पक्षी और यहां तक कि लोग भी मर रहे हैं। हमारी जान को खतरा है। अपने ही लालच में पानी की किल्लत की किसी को सुध नहीं है। मंदा पानी पीने से सौ बीमारियाँ होती हैं और पानी नहीं पीने से निर्जलीकरण होता है और शरीर ठीक से काम नहीं करता है। इस दुनिया को बदलने की जरूरत है। इसलिए, यदि आप दुनिया को एक बेहतर जगह बनाना चाहते हैं, तो खुद पर एक नज़र डालें और फिर बदलाव करें।

जल संरक्षण के कुछ उपाय इस प्रकार हैं:-

• कपड़े और बर्तन धोते समय और शेविंग और दांतों को ब्रश करते समय नल को चालू न छोड़ें।

• चिंतित रहें और अपने आवास के आस पास पानी के सभी रिसाव को रोकें या रिपोर्ट करें।

• शॉवर के इस्तेमाल से बचें और बाल्टी और मग से नहाएं।

• सब्जियों और फलों को धोने के लिए उपयोग किए जाने वाले पानी से पीठों को पानी दें।

• अपनी कॉलोनी में रेनवाटर हार्वेस्टिंग करें।

आइए याद रखें कि धरती माँ हमारे बिना मौजूद हो सकती है, लेकिन हम धरती माँ के बिना नहीं रह सकते। तो आइए हम संकल्प लें कि पानी बचाने के लिए हर संभव प्रयास करें। हम बहुत भाग्यशाली हैं कि भगवान ने हमें कई संसाधन प्रदान किए हैं। आइए हम अपने संसाधनों को महत्व दे कर ईश्वर के प्रति अपना आभार प्रकट करें। शुक्रिया! आपका दिन शुभ हो!

Impact Of Covid-19 On Students...

-By Dishita Mittal

No one would have guessed that a virus-like Covid-19 would come and without differentiating, it will the lifestyle of people. Due to Covid-19, many changes came to our world and It took some time for everyone to adopt the new normal. The Covid-19 impact was everywhere, which resulted in the closure of Schools and other educational institutions. Initially, most governments have decided to temporarily close the schools to reduce the impact of Covid-19. Later it was reopened for a few grades, which increased the number of infection rates and then closed again. Though schools are closed, students are attending their classes through various education initiatives like online classrooms, radio programs. Though it is a good thing happening on the other side, there are lots of students who didn't own the resources to attend the online classes suffer a lot. Many students are struggling to obtain the gadgets required for online classes. Teachers who are all experts in Blackboard, Chalk, books, and classroom teaching are new to this digital teaching, but they are adopting the new methods and handling it like a pro to aid the students in the current position. But on the negative side, many teachers are looking for an alternative job to support their families. Educated parents are supporting their children throughout the pandemic, but we require to understand that there are some illiterate parents and their feeling of helplessness to help their children in their education. There are students in India who came to school just because they can get food. The great midday meal scheme has helped many children who couldn't bring their food from the home to get their nutrition. Because of the closure of the schools, many students were suffering from not having enough food for their survival. Technology paves the way for education, thus helping the students and teachers to connect virtually through online classrooms, webinars, digital exams, and so on. But the sad truth is that it is not available to many students all over the nation. Everything is happening for the well-being of the students so that they can stay safe at home without getting affected by the life-threatening virus. We are not ready for this, but it came, so we have to go through this together, but we have to update the infrastructure and should think of ways to undertake the situation and provide education to every child amid the pandemic if we face something precisely like this in the future to aid the forthcoming generation.

Stay home. Stay safe.

Importance Of Discipline And Time Management

-By Ishita Gupta

By discipline, we mean developing some good habits and integrally imbibing them.

Regularity, punctuality, decency, good manners, and proper behavior are part and parcel of a disciplined life. A person with discipline is a winner in the race of life. Time Management is very important and is very good quality. Discipline helps a person to save his/her energy and be clean with his thoughts. The people who don't have discipline in life may face many problems.

From childhood, one should be concerned about discipline and maintain it. In schools, some children are well disciplined but on the other hand, some are very noisy. Some people speak a lot and face difficulties if they go to a disciplined place. In hostels and offices, indiscipline is not tolerated. When a person gets a job, he/she has to be concerned about the job, and discipline helps it. With discipline, time management is also very important as one should know how to manage time and complete the work on time. Being a student helps to manage time in the future as a student has to complete the school work, study, do house chores, etc. which helps in time management. A person who can manage time is always satisfied, happy, and is kept on a higher side.

So be in discipline, manage time and always be happy! We are children and if these qualities are developed in us right now, we would be benefitted. One can't be perfect but always be good...Be Good And Happy!

DISCIPLINE
