# WONDERFUL POEMS

POEM BY SEHAJ PRATAP  
SINGH

## Time poem

Time is precious like a gold !  
Think what is never sold ! Yes it is  
time.

Don't think how to spend time!  
Time is like a big Devine!

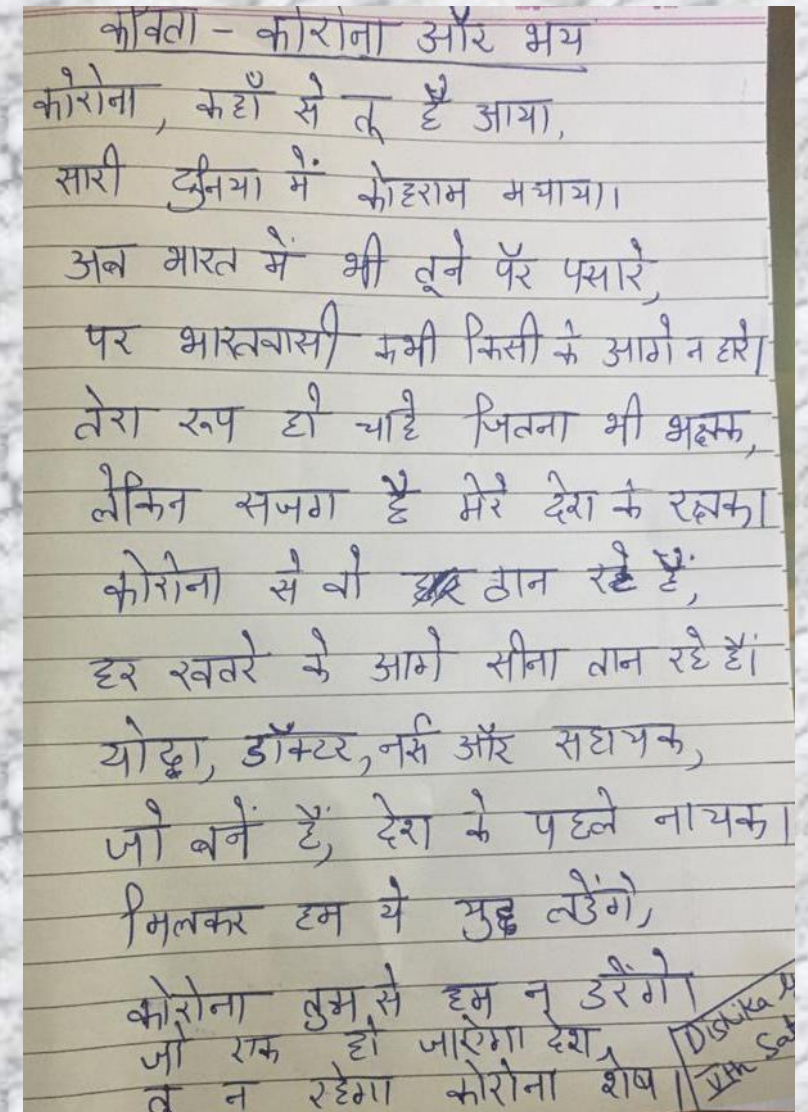

You are the one I wanted the most  
to stay!

But time could not be kept bay!

Time says " Tie me Tie me " !  
Or else shall fly away!

Man has everything else!  
Except the time that he wants!

POEM BY KOVIDH  
CHANDRA

POEM BY DISHIKA  
GOYAL

# Wonderful Poems

## Environment poem

Piles of junk across the streets!  
But people just walk and pass by with  
their feet!

Rivers of life now river of death!  
When I see it I can't catch my breath!

Forest are where animals breed!  
But trees are all gone because of greed!

There must be something that we can  
still do!

Always remember god counts on you!  
So give mother nature life that's brand  
new!

*By Sehaj Pratap Singh*

## Poem on Covid-19

What is everywhere?  
COVID-19 is everywhere.

Till what time wash your hands with soap?  
Till 20 SECONDS wash your hands with soap.

Keep distance of how many metres?  
Keep distance of 2 METRES.

What we must wear while going  
everywhere?  
We must wear MASK while going  
everywhere.

What not to do, what to do?  
HANDSHAKING not to do, NAMASTE to do.

## REMEMBER

### Did You Know?

1. Yellow teeth are stronger. The natural colour of our teeth is a light-yellow colour. Whitening the teeth can permanently weaken them.
2. Hearing your name when nobody is calling you is a sign of healthy mind.
3. The only part of the body that has no blood is the cornea of the eye. It receives oxygen directly from the air.

## Amazing facts!!

1. " Dreamt" is the only English word that ends in the letter " mt "
2. A crocodile cannot stick its tongue out.
3. A shrimp's heart is in its head.
4. Number four is the only one with the same amount of numbers.
5. You cannot talk and inhale or exhale at the same time.....try it!

**MADE BY :- TANVI YADAV**

Have you wondered why,  
The rain from the sky,  
Give us so much peace,  
And puts us at ease.

I can give the answer,  
The rain is a graceful dancer  
Which washes our worries away,  
And make us feel happy and gay.  
When I'm in pain,  
I pray to God for rain,  
To fall on my window pane,  
So that joyfulness I will gain..

Poem-Life in Corona time  
During the lockdown,  
we were staying home,  
To protect ourselves from,  
Out Corona virus storm,  
I am trying to become cook,  
by learning recipes,  
from the magazine,  
and from the book  
A big thanks to teachers,  
for teaching online,  
and I learn lesson,  
when I am offline,  
We should all wear,  
the face mask,  
As this is our, duty and task,  
It is important to,  
maintain social distance,  
we all have to,  
learn this sentence,  
I request everyone to,  
stay in their nest,  
so that they should not,  
get Corona positive test,  
I pray to GOD,  
to end this time soon,  
so that I can play outside,  
In the morning, evening and at  
noon,

**COVID FIGHT BACK**

# ARTICLE ON COVID-19

- Coronavirus disease 2019 (COVID-19), which causes serious respiratory illness such as pneumonia and lung failure, was first reported in Wuhan, the capital of Hubei, China in December 2019. The infection began to spread from the Huanan seafood wholesale market in Wuhan, China. The etiological agent of COVID-19 has been confirmed as a novel coronavirus. The virus spread all over the world in the span of 3 months and it was announced as a pandemic by the W.H.O. As the spread of the infection was rapid with the contact of corona positive person and there was no particular treatment for the same, so every country started declaring lockdown for a short period of time. As of March 25<sup>th</sup>, 2020 more than 400,000 cases of the disease have been confirmed with over 18,000 deaths world-wide. The [Government of India](#) under the Prime Minister, Mr. [Narendra Modi](#) ordered a nationwide [lockdown](#) initially for 21 days, limiting movement of the entire 1.3 billion population of [India](#) as a preventive measure against the [COVID-19 pandemic in India](#) on March 25<sup>th</sup>, 2020.

# *LIFE DURING LOCKDOWN:*

- 
- Thousands of people emigrated out of major Indian cities, as they became jobless after the lockdown. Everyone was stuck at home and worried that we will no longer be able to lead a normal life. Lockdown was tough and challenging time for us all. We were all in a situation that we haven't had to deal with before. The pandemic itself and the measures taken to address it have created insecurity and uncertainty around the globe. After unlock 1.0 in the month of June the circumstances started to get back into shape.

# *POSITIVE EFFECTS OF COVID-*

## *19:-*

---

- Undoubtedly, there are terrible things happening to people's health, their lives, and to the economy caused by the [COVID-19](#) pandemic but there are some good impacts of the several months' lockdown and Covid-19.
- First of all health consciousness and hygiene has been developed among people.
- Govt. tried to develop better health care infrastructure which will be useful for future.
- Fewer expenses. Less money spent on transportation/commuting, entertainment, eating out etc.

# POSITIVE EFFECTS OF COVID-

2:-

- Eating a bit healthier. Eliminating fast food, impulse snack purchases, etc.
- Quality time spent with family. Working women get time to focus on home.
- Less driving results in less traffic jams and less accidents.
- Students are not in hurry to go to school as they are doing online classes and work from home.
- At last, but not the least it has a good impact on the environment like, rivers have become cleaner as industries are closed due to the lockdown. The quality of air has significantly improved during the lockdown.

# कोरोना का कहर

चीन स अनोखा वायरस आया ह,  
'कोवडि-19' जसिन नाम पाया ह।  
अपना ज़हर हर जगह फलाया ह,  
पर वशिव म कोहराम मचाया ह॥

ना कोई उपचार, ना ही औषधि ह ,  
वजजानकिकेक लएि बड़ी चनौती ह।  
इसकी चरचाघर-घर होती ह,  
हमिमत स पार करनी यह कसौटी ह॥

# कोरोना का कहर

---

दर रहकर हम खश होना ह,  
पास आन स फल रहा कोरोना ह।  
हाथो को बार-बार धोना ह,  
घर पर ही हम सरकषतिहोना ह॥

मह और नाक को मासक बचाय,  
हाथो को सनटाइज़र महकाय।  
नमसत करना ही एक उपाय,  
कोरोना को कहना 'गड-बाय ॥ '

## Monsoon

*Last year in July to September,  
How I enjoyed rain I still remember.  
First when the dark clouds appear in the  
sky,  
I was no able to see sun with my eye.  
I remember the most fearful thing,  
That was the second of thundering and  
lightening.  
Finally the most exciting time came,  
It was heavy, wonderful rain.  
There are certain advantages and  
disadvantages,  
That I will notice in next year once again.*

### Rain Rain

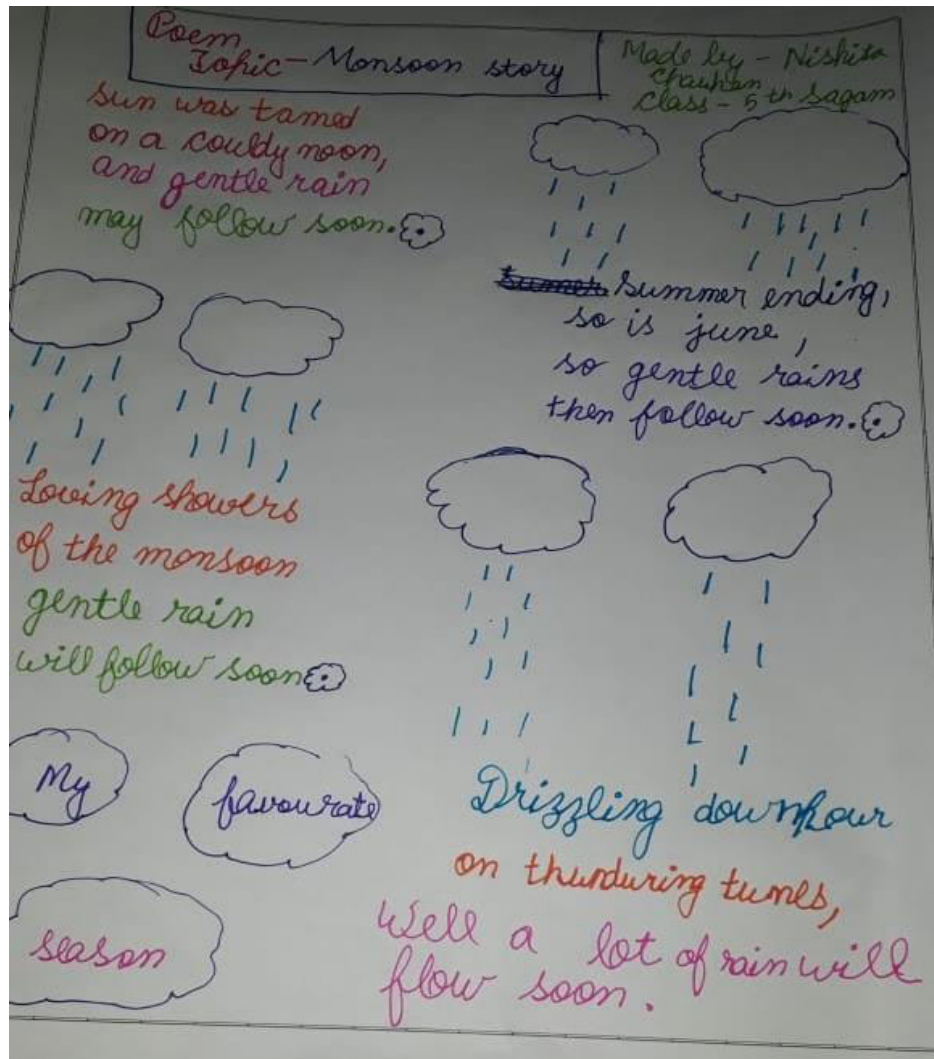

Rain Rain come again  
if you are in the game  
little children want to play  
rain rain come again

Rain rain come again  
children are in the train  
children become happy when they  
see the rain.  
Rain rain come again

Rain rain come again  
plants get water from the rain  
children take bath in rain  
rain rain come again

Rain rain come again  
we'll play another game  
we want to wet again  
rain rain come again

-----:----- जा कोरोना जा -----:-----

छोटा सा जीवन ,  
छोटी-छोटी आशाएं ।  
आशाओं ने ओढ़ ली ,  
निराशाओं की चादरे ।  
शहर चुप गलियां चुप ,  
चुपचाप खड़ी इमारतें ।  
सोचता हूं मेरे शहर को ,  
क्या हो गया ।  
नजर लग गई या ,  
अभिशाप लग गया ।  
कोरोना चला जा वापिस ,  
और दे दे मुझे खुशियां ।  
ताकि पूरी कर सके ,  
हम अपनी खाहिशें ।

# AMAZING

FACTS ABOUT

# OCEAN ANIMALS

## One million species!

Oceans cover almost 70% of Earth's surface and contain about 97% of Earth's water. The scientists believe that 1 million species of animals live in the oceans. There are several unknown facts about the ocean life which never cease to mesmerize us. Let's have a look at some of the interesting facts about ocean animals.

## Jellyfish

Jellyfish have been around for more than 650 million years which means that they outdate both dinosaurs and sharks.

## Dolphins

Dolphins can identify humans by checking their skeleton structure through sonar. They use this to identify and save drowning shipwreck victims.

## Bluewhales

At 188 decibels, the calls of blue whales are the loudest sounds made by any animal on the planet.

## **How the pandemic changed our lives?**

The whole world is under lockdown due to the covid-19 pandemic. I won't lie this pandemic has both negative and positive impacts on our lives. Today I'm going to talk about that. So I'm going to start with negatives. You see we like to play outside and go to the parks, meet our friends, attending parties and all that kind of stuff. But the pandemic has stopped us to do so. The pandemic is like – stay home or I'll get you. Another thing is that WE CAN'T GO TO SCHOOL! For me personally I love going to school but the pandemic won't let me and frankly I miss my school a lot. But the positives keep their own points like I'm spending a whole lot of time with my family just playing and talking to them. Oh god! I thank the internet because without it I wouldn't be able to talk to my friends and family or attend online school in which I get to see my beloved teachers ( not as fun as a real school though ) . Another point is that I'm getting to polish my skills in a lot of things. A LOT. I hoped you liked my article- how the pandemic changed our lives.

# Poem - COVID-19

Beware! Of the enemy untold.  
You may be young or old  
But the COVID-19 can unfold on you  
Let us take precautions be wise  
It's better than sorrows and cries

If you have to go out think twice  
Wear your mask and be wise  
After coming home sanitize  
And wash your hands thrice

Symptoms like fever making us weak  
Doctors help we need to seek  
Let us unite and find a cure quick

You will get fever as I told  
You will get a headache and a cold  
Following up then comes cough  
Getting rid of it is now quite tough

You will get problems of respiration  
Now we all need prevention  
Let us build immunity you and me  
We'll fight the virus  
That's the hope!

Poem by- Dishita Verma

## 'The horrible dream'

Once upon a time there was a puppy who was shivering in the cold night. Ramesh was passing from that road the dog saw him and started to licking his feet. He got angry and throw the dog on the foot path and started walking again . He reached his home he was a pretty tired so he go to his bed . He was in deep dream after few minutes only . He was dreaming that he is in a garden with beautiful flowers like roses and lotuses but suddenly everything was changed the beautiful garden was changed into a thorny garden with dried flowers. He saw the same puppy but now he was not a puppy it was changed into a horrible creature. The creature snatched him and killed him. He got up and said 'Oh god fortunately it was a dream' he ran and reached the place where he had threw the dog . The dog was dead now . He cried and cried then he made a grave for the dog and put the dog in it . He named the dog as lucky .

# 3 animals you won't believe exist – By Dishita Verma

Glaucus atlanticus

This is Glaucus atlanticus. It is a sea slug. It is often called a blue angel or a blue dragon. It may be tiny but it has powerful stings.

## Additional facts

- 1 it can grow up to 1.2 inches (3 cm) long.
- 2 blue Glaucuses eat large venomous prey such as Portuguese man o' war and the blue button jelly and store their prey's stinging cell in bodies to use against predators.

Glass winged butterfly

This is a glass winged butterfly. It is primarily known for its beautiful translucent wings. Its wings look like mirrors. Males show off their wings to gain the attention of the female.

## Additional facts

- 1 the glasswinged butterfly is one of the strongest butterfly species.
- 2 the glasswinged butterfly is also known as Greta oto.

Okapi

This is an okapi. It lives in Congo. They have zebra stripes on their legs but are more closely related to giraffes. They are herbivores that are active during the day.

## Additional facts

- 1 okapi is a very shy animal and is hard to find in the wild.
- 2 okapi is the only living relative of the animal giraffe.

# Punjab Wetlands

Punjab Wetlands Punjab deriving its name from five rivers- Satluj, Beas, Ravi, Jhelum, and Chenab – Which flow through its plains. Punjab is representative of abundant things. Widely acknowledged as the cradle of civilization, it is a land of ethnic and religious diversity having borne and shaped a number of religions include Sikhism, Buddhism and Sufism. Punjab being an agrarian society with more than 83% of total geographical area under civilization, Punjab has 12 Wildlife Sanctuaries, 2 Community Reserves and 1 Conservation Reserve, it has also 3 Wetlands have been recognised as Wetlands of International Importance and have been declared as Ramsar Site –

- **Harike Wetlands** - It is located at Harike Pattan. The variety of birds found here includes Glossy Ibis, Golden Orioles, Smith coated otter etc.

## Punjab Wetlands (Cont.)

- **Kanjli Welands** – It is located at Kapurthala. The variety of birds found here are – Red Avadavat; Spot-billed duck; White-capped Redstart, etc.
- **Ropar Wetlands** - It is located at Rupnagar. The variety of birds found here are – Black-Rumped Flameback; Purple Heron, etc.
- **Nangal Wetlands** - It is located at Nangal. The variety of birds found here are – Egyptian Vulture; Shikra; Indian Roller; Chestnut-bellied Sandgrouse; Asian Paradise Flycatcher, Red-naped Ibis, etc.
- **Keshopur Community Reserve** - It is located at Gurdaspur. The variety of birds found here are – Demoiselle Crain; Rufous Sibia; Himalayan Bluetail; Blue-winged Siva, etc.

## **THE BEST THING I LEARNT DURING LOCKDOWN.....!!**

Necessity is the mother of invention, we say. When a thing is utterly necessary we do not tend to bargain or try to have a choice. Necessity is urgent, it is the spur of genius, and is blind until it becomes conscious. Necessity makes even the timid brave.

It all started on the 24th of March with the first lockdown being announced due to the CORONA VIRUS. Me and my sister were happy as it was like an extended vacation. But soon we realised that it was turning into a punishment with no school, no friends, no playgrounds and practically nothing that anyone could do about it !!

In the first week of April we got the news that our school was about to start online classes. Little did I realise that this alliance with technology is going to open a new door for me. Yes! The best thing I learned during lockdown was the interface with technology. Initially all seemed Greek. Google i.d's and Zoom setups seemed to have drooped straight out of heaven. Online presentation and lesson plans were aliens and life seemed under attack of bizarre sounding xtramarks and mindspark apps! Although we had an exposure to powerpoint presentations and computer labs at school, by far schooling and core syllabus was dependent on class interaction, books and blackboards. This shift to online medium was an apprehensive one with multiple questions on how far would it justify and replace the old system of education.

Initially, it was hard to understand the network challenges and follow the detail initialization and set up procedures. But this was a necessity and I had no choice but to learn and embrace this change.

Trials and errors went on for a while and I found myself coming with terms with this new way of learning. Technology now became our new friend in learning along with our parents and teachers.

I first learnt how to connect multiple devices with one WIFI to view my lesson plans. Afterwards I was able to transfer the required phone apps to my T.V and laptop reducing the strain on my eyes. Small success added wings to possibilities. Technology offers a borderless world to learning if one dares to challenge self founded fears. I started performing small experiments and seeking detailed explanations of my lessons by now! I solved math puzzles, maze and played chess too! I could create and record my own music and even help my younger sister do her homework and help her create her own bedtime stories.

Recently, I made a compost bin using simple household materials through an online learning resource which now provides organic fertilizer to our plants from kitchen waste. My journey is still on as learning is a continuous process. As we say the first step is all it takes to move beyond our fears!!

Challenges and Strength go hand in hand. While embracing difficult times the strength which we find today will be the cornerstones of our future tomorrow! I trust, a little hope mixed with little effort makes the best antidote for life under lockdown.
