NCC Selection Trails for Session 2024-25

Introduction:

The NCC trials for the selection of cadets for the session 2024-25 were conducted successfully under the supervision of officers from the Ambala Unit and the school's Associate NCC Officer (ANO). The trials aimed to identify and select the most promising students to be inducted into the National Cadet Corps (NCC).

Conduct of Trials:

1. Preliminary Briefing:

The trials commenced with a preliminary briefing by the officers from the Ambala Unit. The students were informed about the selection process, the criteria for selection, and the importance of discipline, physical fitness, and leadership skills in the NCC.

2. Physical Fitness Test:

The first stage of the trials involved a series of physical fitness tests designed to assess the overall fitness levels of the candidates. The tests included:

- 1.6 km run
- Push-ups
- Pull-ups

The candidates were evaluated based on their endurance, strength, and agility.

3. Written Test

The next stage was a written test designed to evaluate the enhancement of the cadets' knowledge and skills.

The candidates were evaluated based on the following criteria:

- Physical fitness
- Communication skills
- General awareness
- Leadership potential

The trials concluded with the selection of [insert number] cadets who demonstrated exceptional qualities in all the assessed areas. These cadets will undergo further training and will be officially inducted into the NCC for the session 2024-25.

The NCC trials were conducted smoothly and efficiently, thanks to the efforts of the officers from the Ambala Unit and the school's ANO. The selected cadets have shown great promise and are expected to uphold the values and traditions of the NCC. The school administration extends its gratitude to the Ambala Unit officers for their support and looks forward to a successful NCC session ahead.
