## A Poem by Lavya Gupta

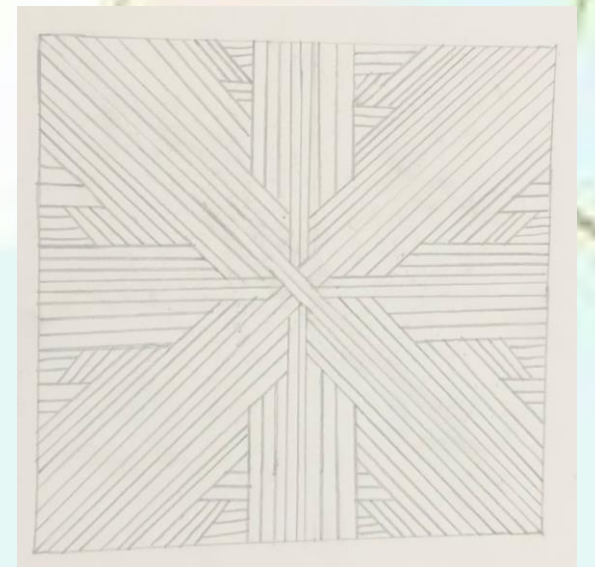

The nature gives you sight  
Which are beautiful and so much bright  
Watching them you can relax  
With your favourite snacks

Either a rushing waterfall  
Not crowded like a mall  
Or a hill  
Doing some tracking which is very much thrill

Or even an orange sunset in the desert  
Which makes you deserted  
Or one more option is a splashy island  
Where the sea is touching the land

## Book

Recently, I read the book 'Diary of the Wimpy Kid – The Long Haul' which is the ninth book of the series diary of a wimpy kid by the author Jeff Kinney in which Greg Heffley the main character is writing his adventurous experiences. I have read the other books too, but this was my favorite. In this book he is on a road trip with his family and as expected with lots of problems like pig-biting, seagulls, several wrong turns, the lost keys at the water pool and many more, but till the problems continue we have our entertainment. So I suggest you to read the book for sure and enjoy the book.

## Review

### Geronimo Stilton

It is a fun series about a mouse. It is for the readers who like light, simple and adventurous books. It gives you a feeling of sometimes happiness and sometimes sadness. It is a time consuming book which keeps you interested the whole time. It is recommended for 10-15 year children. Some of the best books are:-

1. The Karate Mouse
2. The Kingdom of Fantasy
3. Geronimo, Merry Christmas
4. Robot Attack
5. The Haunted Castle

## BACK TO SCHOOL

I had a lovely day, in my class today  
Singing on the occasion of teachers day,  
But I was not to happy due to Covid-19  
We were not together and having fun  
I would like to pray and wish that this  
Pandemic should vanish and I would  
Love to go to school & meet my friends

of the new school, I would love to study in the school  
Instead of in my home, learning in school is fun  
Oh, God Oh, God please listen to my wish and  
Make the covid-19 vanish so that I can go

# BOOK REVIEW

Book name: **THE JUNGLE BOOK**

Author: **RUDYARD KIPLING**

BOOK TALK:-

*The book tells how a person can make animals as their friends and tell we do not have to kill animals whereas we have to make them our friends.*

Book Review:-

*This story is about a boy named mogli whose father was killed by a tiger known as sherkhan. I liked mogli and wolves make mogli to grow in jungle. One thing that I know from this book is that animals can also be the friends of people too. The person likes adventures stories will like this book.*

Reading Responses:-

*Before reading this book I used to think that adventures stories are the most boring stories. But after reading this book I realized that adventures stories with a thrilling touch are really interesting. It was really a fun time reading this book and I enjoyed the suspense of this book.*

# IMPORTANCE OF BOOKS AND MAGAZINES

- Books play an essential role in every student's life by introducing them to a world of imagination, providing knowledge of the outside world, improving their reading, writing and speaking skills as well as boosting memory and intelligence. They give to the reader the opportunity to extend knowledge and they facilitate self-education.
- Magazines provide a wealth of information, inspiration and creative ideas for readers. They offer the feeling of holding something in your hand and reading it which I believe is important to society. Not just on the covers, magazines create a highly sensory reading experience, which improves memory.

## BOOK REVIEW OF: **THE SECRET SEVEN**

Author: Enid Blyton

My Rating: ★★★★★

PROJECT BY:

**TARUSH SHARMA, VI E**

## SUMMARY :

This story is about seven kids- Peter, Janet, George, Jack, Barbara, Pam and Collin, who refer to themselves as 'The Secret Seven'. Strange things start occurring in the house next to Peter's, and the group starts investigating it in hopes of figuring out what is happening there; sneaking around and observing it whenever they could. After putting efforts and gathering evidence, they finally succeed in discovering what was going on in the mysterious old house.

## MY THOUGHTS :

I think this book is a great, mysterious read. It got me wondering what could possibly be happening in the house. I also found parts of the book very funny, for instance when four of the boys and the dog dressed like snowmen so that they could spy on the house. The ending was very unexpected and surprising, and I liked that. I would rate it about a four out of five and would definitely recommend it!

# FESTIVAL TIME ..... DIWALI

By –Janhavi Verma

By - Bhvya

Diwali is a Hindu festival that is known as the festival of lights. This festival usually lasts for five days and is celebrated during the Hindu month of Kartika. The festival symbolizes the spiritual “victory of light over darkness.” In India, Diwali is also known as Deepawali. Diwali is celebrated to commemorate the arrival of Lord Rama to Ayodhya after defeating the demon king Ravana.

# INTERNATIONAL MATHEMATICS DAY

## NATIONAL MATHEMATICS DAY

National Math's Day is celebrated to mark the birth anniversary of the mathematics genius Srinivasa Ramanujan and his contribution to the field of mathematics. Celebrated on 22 December, Mathematics Day was declared as a day to mark the birth of the stalwart on his 125th birth anniversary. In his short lifespan, Srinivasa Ramanujan born on 22 December 1887, made innumerable contributions to various aspects of mathematics like fractions, mathematics theory and analysis.

The former Prime Minister, Dr Manmohan Singh paid tribute to the 125th birth anniversary of Ramanujan as Happy National Mathematics Day. The most important reason to celebrate this day is to raise awareness about the importance of mathematics in people and the integral part it plays in the development of humanity. Training for these is provided to teachers and students through camps. The main objective is to highlight the development, assembly, implementation of teaching and learning.

There are several ways in which the day is celebrated across India.

- Schools, colleges, universities, and other educational institutions celebrate the day by taking various steps, measures to educate students in mathematics and spread knowledge.
- UNESCO and India work in tandem to spread more information about mathematics learning and understanding.
- National Academy of Science India, the oldest science academy situated in Allahabad conducts a two-day workshop on the application of Mathematics and Ramanujan.
- Speakers from all over the country and the world attend to discuss the contribution of Srinivasa Ramanujan in Mathematics.
- The workshop also discusses the contribution of India to Vedic mathematics.
- Quizzes and mathematics workshops are held across several schools in India to get children to participate and enhance their knowledge.
