Clock making activity

Making of clock by the students will help them learn to tell time. Mastering this skill can seem hard at first but with hand on practice, students strengthen their understanding of how clock works. Here's a fun activity that students created a clock of their own.

The background features a large, glowing Diya (oil lamp) in the center, filled with many smaller lit Diyas. The Diya is made of a golden-brown material and has a scalloped, tiered design. The flames are bright orange and yellow. In the top left, there is a blue banner with the title 'The Sapphire Bulletin' in white cursive. A yellow pencil is positioned at the top center, pointing downwards. On the left side, there are several colorful spheres (green, blue, pink) and a red pencil. The overall theme is educational and celebratory.
