Boosts Brain Power

Higher IQs: The relationship is still being studied, but there seems to be a link between intelligence and creativity.

Problem-solving Skills: Making decisions while creating art carries over into other parts of life.

Visual Learning: Looking at art can help a child interpret, criticize, and process what they see.

Creativity and Craftsmanship: Kids learn originality and innovation, as they practice being creative earlier in life.

Imagination: Even older children can benefit from escaping into their imaginations through art.

Improves Concentration: Crafting may help less attentive kids improve their focus.

ART HAS
 THE ROLE IN EDUCATION
 OF HELPING CHILDREN
 BECOME LIKE THEMSELVES
 INSTEAD OF MORE
 LIKE EVERYONE ELSE.

Dear Students,

Always remember the beautiful and motivational quotes given by Dr APJ Abdul Kalam whenever you feel low in life

All Birds find shelter during a rain. But Eagle avoids rain by flying above the Clouds. Problems are common, but attitude makes the difference.

Don't fear failing in the first attempt because even the successful math starts with zero only.

If you fail, never give up. Because fail means "First Attempt in Learning".

With lots of love

Story Tenali - Raman Chaturaj ke Kisse
Author: Devika Rangachari

The Book illustrates tales from Raman's childhood how he prayed to the Goddess Kali and got blessings. Tales from his time at the court of Krishnadevaraya and how he to be one of the Astadiggajas one of the eight poets of Krishnadevaraya court it has simple and plain language but delightfully written. The target audience of the book is mainly primary children but that doesn't mean adults can't enjoy it. The book ~~means~~ shows how Tenali Raman would just observe and apply his knowledge intelligently to impress others around him. There are plenty of tales of his wit that can be found, the book covers but a few.

Book Review
Name of Book- The Blue Umbrella

The Blue Umbrella is written by a famous author Ruskin Bond. He has weaved magic with his words in this simple, sweet story. It is a simple yet beautiful story of a ten year old mountain girl named Binya. She was living in a village near Tehri road with her mother and her elder brother Vijay. She was having innocent fascination with the blue umbrella. This leads her to various circumstances and it also consist of an unexpected twist. So, we will recommend you all to read this magnificent book. We suggest that this book would be more enjoyable for nature lovers as it has many parts which describes greenery. We just picked this book and started reading and it kept it hooked till the end.

HAPPY BHAJ DOOJ

This is one of my favorite festival as my Brother born on that Day

Bhai Dooj is a festival symbolizing the love of brother-sister, which traditionally marks the bond between the siblings. On this day, sisters pray for their brothers to have long and happy lives by applying 'Tika' on the latter's forehead. Both brothers and sisters exchange gifts and sweets on occasion.

The occasion falls on the last day of the five day long celebrations of Diwali or Tihar festival. It is also celebrated as "Yama Dwitiya" in the southern parts of India. The festival of Bhai Dooj has a literal meaning attached to it. It is made up of two words namely- 'Bhai' meaning brother and 'Dooj' meaning the second day after the new moon which is a day of its celebration

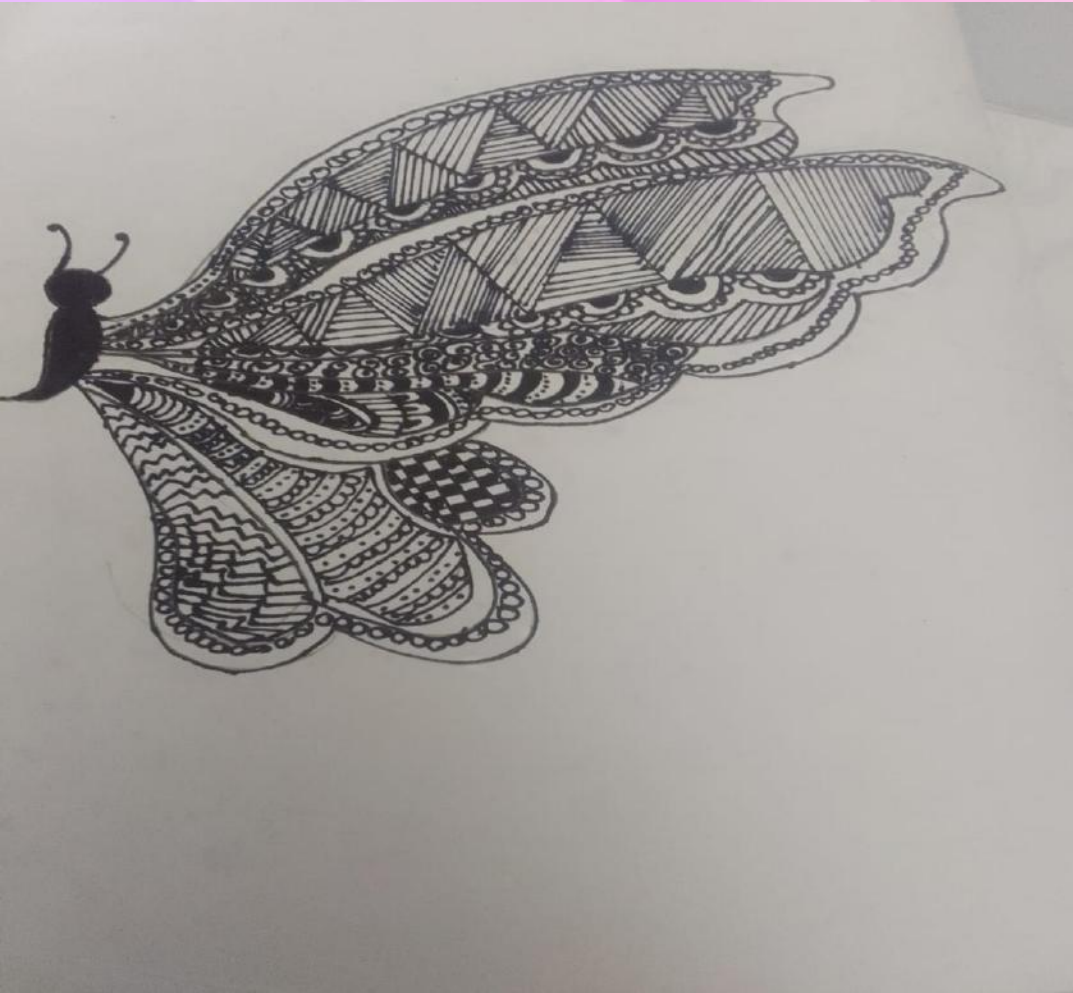

There are few Hindu mythological based stories related to the origin of this auspicious day. According to the one legend, Lord Krishna visited his sister, Subhadra after killing demon Narkasur. Her sister gave a warm welcome to him and made the occasion really special through flowers and sweets. Subhadra also applied the ceremonial 'tilak' on the forehead of her brother, Krishna and hence the festival of 'Bhai Dooj' was born from there.

Another legend revolves around the story of Yama, the God of Death and his sister Yamuna. It is believed that he met his beloved sister on Dwitheyta, the second day after the new moon and thus the occasion began to be celebrated as 'Yamadwitheya' or 'Yamadwitiya' across the country from that day
